

Transportation and Visitation to National Parks 2013 Survey (Onsite)

We are interested in what brought you to this unit of the National Park system. We are also interested in knowing if you have visited several other units of the National Park system and why or why not. Please accept our thanks for taking the time to complete this questionnaire.

The National Park Service manages more than 400 parks and related areas around the country. This survey asks about your visits to some of these areas. These areas include large, well-known national parks such as Yellowstone National Park and Grand Canyon National Park and smaller, historical and cultural sites and monuments like Statue of Liberty National Monument and Gettysburg National Battlefield.

PAPERWORK REDUCTION ACT STATEMENT: The National Park Service is authorized by 16 U.S.C. 1a-7 to collect this information. This information will be used by park managers to understand how current transportation systems are used to facilitate visitor movement, provide for quality visitor experiences. Your response to this request is voluntary and anonymous. No action may be taken against you for refusing to supply the information requested. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

BURDEN ESTIMATE statement: Public reporting burden for this form is estimated to be 15 minutes per response. Direct comments regarding the burden estimate or any other aspect of this form to: Jennifer_Kovarik@nps.gov (email)

For the purposes of this review and submission the justifications for each question or section of questions is highlighted in a shaded text box above each question. These text boxes will not be printed on the final version of the surveys. The Topic Areas noted match the currently approved pool questions for the NPS Programmatic Review Process (1024-0224 - Current Expiration Date: 8-31-2014). The questions that are slight variations are denoted as such. Any questions that are outside the general scope of the programmatic review process have been carefully discussed and generally approved by the NPS Information Collection Review Coordinator with understanding that those questions will require further review and consideration by OMB before full determination and approval can be granted.

This collection will be administered on-site at 5 locations: (1) General Grant National Memorial, (2) African Burial Ground National Monument, (3) Fire Island National Seashore, (4) Acadia National Park, and (5) Grand Canyon National Park. The different site will be inserted alternated and replaced in the questions below depending upon the location of the survey.
