

Non-response survey On-site

We understand that you might not have time to complete the entire survey. To ensure our results are representative of all hunters in the Preserve, we would like to hear from as many hunters as possible. Please help us out by completing the following three questions. When you are done, please fold this sheet of paper and return to the survey administrator.

Thank you.

Non-response survey Mail-back

Dear Hunter,

About two months ago we mailed you a survey for a study at Noatak National Preserve. As of today we have not received your completed questionnaire and the period to receive completed questionnaires has come to a close. I am writing to let you know that we would still appreciate hearing from you. We hope that you will take a couple of minutes to complete and return the information in this letter. These few questions will help us know a little something about the people receiving our surveys. This remaining information will help us complete the survey process.

Thank you.
