

effort will aid in the preparation of either document. In addition to this opportunity to comment and participate from the beginning of the study process, the public will be afforded the opportunity to review the environmental document and submit additional comments. For initial scoping and alternatives development, the most useful comments are those that provide the NPS with assistance in identifying issues and concerns which should be addressed, or providing important information germane to this study. All responses to this Scoping Notice will also be used to establish a mailing list of interested persons, organizations, and agencies that desire to receive further information as the environmental document is developed.

The public scoping period for the Cesar Chavez Special Resource Study will conclude June 16, 2011. Scoping meetings (public workshops) will be held in the vicinity of key sites, likely in or near San Jose, the Salinas Valley, Delano, Los Angeles, Oxnard, Yuma and Phoenix in April and May of 2010. A news release will be distributed announcing the public meetings. The dates, times and locations of the meetings will be posted on both the project Web site (address below) and the Web site for NPS Planning, Environment and Public Comment, and will be advertised in a newsletter which will be distributed to stakeholders and interested parties. Interested individuals, organizations, and agencies wishing to provide written comments on issues or concerns should *respond to*: National Park Service, Cesar Chavez Special Resource Study, Park Planning and Environmental Compliance, 1111 Jackson Street, Suite 700, Oakland, CA 94607. Comments may also be submitted electronically by e-mail (address below) or through the NPS Planning, Environment and Public Comment (PEPC) Web site. This site can be accessed through the study's Web site listed below.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

FOR FURTHER INFORMATION CONTACT: Information updates about the study process and opportunities for the public to participate will be periodically

distributed via direct mailings, regional and local news media and the Cesar Chavez Special Resource Study Web site (<http://www.nps.gov/pwro/chavez>). The study team may be contacted via e-mail at pwr_chavez@nps.gov.

Decision Process: Availability of the forthcoming draft environmental document for review and written comment will be announced by local and regional news media, the above listed Web site, and direct mailing. At this time the environmental document is anticipated to be available for public review and comment in Fall 2011. Comments on the draft document will be fully considered and responded to as appropriate in the final document. The official responsible for the initial recommendation will be the Regional Director, Pacific West Region, National Park Service. The official responsible for amending or ratifying the recommendation and transmitting the final document to the Secretary of the Interior will be the Director of the National Park Service. The final document will identify the alternative that, in the professional judgment of the Director of the National Park Service, is the most effective and efficient method for protecting significant resources and providing for public enjoyment. The Secretary of the Interior subsequently will forward the completed study along with a recommendation regarding the Secretary's preferred management option for the area to Congress for their consideration. It is anticipated that the final study report will be available in late 2011.

Dated: April 6, 2011.

Patricia L. Neubacher,

Acting Regional Director, Pacific West Region.
