NPSAS:12 Student Re-interview
Data Collection Instrument

Student Re-interview

The questions to be tested in the reliability re-interview will be a subset of items from the full student interview (NPSAS 2012 Field Test Student Appendix H Student Interview.docx). The re-interview items will be selected after cognitive interviewing has been conducted so that the results can inform which items should be tested for reliability. The set of items to be included in the re-interview will be available in this document by January 14, 2011.
