

## Appendix B

### PIAAC 2011-2012 Main Study Background Questionnaire

Code	A_Q01a		
Question	I would like to start with some general questions. Can you please tell me in which year you were born?		
Instruction	1. This question is crucial for the routing. Don't knows or refusals are to be minimised. Please probe for an answer. 2. If the year of birth is out of range (for interviews conducted in 2011, this range is lower than 1945 or higher than 1995; for interviews conducted in 2012, this range is lower than 1946 or higher than 1996), please check the eligibility of the respondent. If the respondent is not eligible, you should break off the interview and set disposition code to <25> in the DISP_BQ screen.		
Responses	00	Year: [FTE]	{ 1945 ; 1996 }
	D K	DK	
	RF	RF	
Code	A_Q01b		
Question	And in which month were you born?		
Responses	01	January	
	02	February	
	03	March	
	04	April	
	05	May	
	06	June	
	07	July	
	08	August

Question	During the last 12 months, that is since ^MonthYear, have you studied for any formal degree or certificate, either full-time or part-time?								
Instruction	This question refers to all participation in formal education in the last 12 months, including education that the respondent left before completion.								
Help	1. If the respondent is unsure what is meant by 'formal degree', explain that this question refers to studies that, when completed, result in formal degrees at primary, secondary, university or post-secondary level. 2. If the respondent is still in doubt, already hand over the SHOW CARD 3 intended for question B_Q05a, asking 'During the last 12 months have you participated in any of the programs listed on this card?'								
Responses	<table border="1"> <tr> <td>01</td> <td>Yes</td> </tr> <tr> <td>02</td> <td>No</td> </tr> <tr> <td>D K</td> <td>DK</td> </tr> <tr> <td>RF</td> <td>RF</td> </tr> </table>	01	Yes	02	No	D K	DK	RF	RF

Instruction	This can refer to any course, regardless of the purpose (work or non-work).	
Help	1. Courses are typically subject oriented and taught by persons specialized in the field(s) concerned. They can take the form of classroom instruction (sometimes in combination with practice in real or simulated situations) or lectures. 2. If the person delivering private lessons has a teacher-student relationship with the respondent this question should be coded as 'yes'. If the provider/tutor is assisting the learner as a friend, family member or other social relationship it should be coded as 'no'.

Question	What kind of activity listed on this card was this?										
Instruction	After the respondent has answered, take back show card 14.										
Help	<p>1. Open or distance courses are similar to face-to-face courses, but take place via postal correspondence or electronic media, linking instructors/teachers/tutors or students who are not together in a classroom. 2. Organized sessions for on-the-job training or training by supervisors or co-workers is characterized by planned periods of training, instruction or practical experience, using normal tools of work, It is usually organized by the employer to facilitate adaptation of (new) staff. It may include general training about the company as well as specific job-related instructions (safety and health hazards, working practices). This includes for instance organized training or instructions by management, supervisors or co-workers to help the respondent to do his/her job better or to introduce him/her to new tasks, but can also take place in the presence of a tutor. 3. Courses are typically subject oriented and taught by persons specialized in the field(s) concerned. They can take the form of classroom instruction (sometimes in combination with practice in real or simulated situations) or lectures. If the person delivering private lessons has a teacher-student relationship with the respondent this question should be coded as 'yes'. If the provider/tutor is assisting the learner as a friend, family member or other social relationship it should be coded as 'no'.</p>

Question	In the last 5 years, since ^Year, for how many different firms or organizations did you work? Include your own business or businesses in the case of self-employment.								
Instruction	In the case that the formal status of an organization changed while the respondent was working there, for example as a result of a merger or reorganization, respondents should report the full period of time he/she has been working for the organization or part thereof as a single firm or organization.								
Help	1. All jobs should be counted, even short-term jobs and jobs involving only a few hours of work per week. 2. An unbroken spell of employment with the same temporary work agency should be counted as having worked for one firm, irrespective of how many different firms the person worked in during that period. Similarly, an unbroken spell of employment as a consultant or freelance worker should be counted as having worked for one firm, irrespective of how many different firms the person worked in during that period. 3. 'Business' refers to more or less continuous and coherent settings within which one works for oneself. It could refer to an actual business enterprise like a farm or a factory, but also in the case of freelancers to a line of work whereby one provides a similar set of products or services to one or more clients. Short periods in which the respondent is idle because no orders have been received, but is available to perform the same kind of work, should be counted as part of the same 'business'. If the respondent returns to the same kind of work after a significant period in which he or she has not been available, this should be counted as a different 'business'.

Instruction	Enter age OR year.	
Help	1. In the case that the respondent has returned to running a business after a period in which he/she did not run that business, only the current episode should be counted, except when people were temporarily away from their business because of holiday, sickness, maternity leave, sabbatical etc. 2. In the case that the formal status of the business has changed since the respondent started running this, for example as a result of a merger or reorganization, respondents should report the full period of time he/she has been working in this business or part thereof.

Question	How many employees do you supervise or manage directly or indirectly?

	Would that be ...														
Instruction	Read categories to respondent.														
Help	1. 'Directly' refers to a situation in which employees are directly accountable to the respondent. For example, a general manager of a firm may supervise three managers directly, giving them orders or instructions, and checking to see whether these have been followed. 2. 'Indirectly' refers to a situation in which employees are not directly accountable to the respondent, but are accountable to another person who falls under the chain of command of the respondent. For example, if each of the three managers directly supervised by the general manager supervises 10 people, the general manager will supervise 3 people directly plus 30 people indirectly. In this case, the correct answer would be 33 people (25 to 99 people). If the 10 people supervised by the managers each supervise 10 people, 300 people would be added to the total, which would become 333 (100 or more people).

Question	Now I would like to ask you some general questions. Including yourself, how many people usually live in your household? Please include people who are temporarily living elsewhere.
Instruction	1. Household membership is defined by the existence of SHARED EXPENSES (including benefiting from expenses as well contributing to expenses) and the place of usual residence. 2. The place of usual residence defines who belongs to the household. A person shall be considered 'usually resident' if he/she spends most of his/her daily rest at this household evaluated over the last one year.
Help	1. Boarders and lodgers are only considered as member of the household IF they share in the household expenses. 2. Students sharing a dwelling can only be considered as members of one household IF they share in the household expenses. 3. People absent for a long period due to work, but continuing to have a clear financial relation with the household, are

	considered member of the household (e.g. head of household working abroad). 4. Children who are educated away from home should be considered member of the household if they have no private address and continue to maintain close relations (e.g. come home every weekend).
