

DF3: BUILDING INFORMATION SURVEY

Thank you for your prompt response to this data request which is part of the ARRA-period evaluation of the Weatherization Assistance Program. Evaluation results will provide essential feedback to the weatherization community and inform policymakers about the program's effects on clients' energy consumption, cost savings, and non-energy benefits.

This survey collects detailed information about multifamily buildings weatherized by your agency in Program Year 2010. The information you supply will be used with billing history data to better understand energy savings attributable to the Weatherization Assistance Program under ARRA.

Please use this form (DF3) to provide information about small or large multifamily buildings in which improvements were made to the building shell, common areas, central HVAC or domestic hot water systems. The Housing Unit Information Survey (DF2) should be used to document information on weatherized single family detached and attached houses, mobile homes, or individual units within multifamily buildings. Refer to the definitions of each building type provided at the end of the survey because these definitions are slightly different than those commonly used within the Weatherization Assistance Program.

All of the information obtained from this survey will be protected and will remain confidential. The data will be analyzed in such a way that the information provided cannot be associated back to your state, your agencies, or the housing units and clients that your state served.

Thank you in advance for completing this survey.

Public reporting burden for this collection of information is estimated to average twenty hours per weatherization agency, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Office of the Chief Information Officer, Records Management Division, IM-11, Paperwork Reduction Project (____), U.S. Department of Energy, 1000 Independence Ave SW, Washington, DC, 20585-1290; and to the Office of Management and Budget (OMB), OIRA, Paperwork Reduction Project (____), Washington, DC 20503.

Form completed by: _____ Date: _____

IDENTIFICATION

[Q1-6 will be pre-completed by the evaluation team]

1. Agency name: _____

2. State: _____

3. Building ID number: _____

4. Building name: _____

5. Site address: _____

6. City: _____

WEATHERIZATION INFORMATION

Weatherization dates (not audit or inspection dates):

7a. Started: _____

7b. Completed: _____
(month) (day) (year)

The start date is the first date that weatherization improvements were made to the building. The weatherization start date is not the date the audit or home assessment was conducted UNLESS energy efficiency improvements were made at the time of the audit. Client education and low-cost measures such as light bulbs and showerheads ARE considered energy efficiency improvements, and if any of those are implemented at the time of the audit, then the start date is the audit date.

The end date is the last date that weatherization improvements were made to the building, including any rework required after agency or state-level post-weatherization inspections. The date of the post-inspection should NOT be used as the weatherization end date unless the post-inspection was conducted on the last day that improvements were made to the building and no rework was required.

8. Was this a “reweatherized” building? (*check only one*)

- Yes
- No
- Don’t know

Check “yes” if the building was previously weatherized in a prior program year.

9. Does the building meet your state’s definition for being a high residential energy user? (*check only one*)

- Yes
- No
- No state definition in place
- Don’t know

10. Did the building owner or any occupants of housing units within the building file a complaint about the weatherization services you provided? (*check only one*)

- Yes
- No
- Don’t know

BUILDING INFORMATION

11a. Building type – see definitions at end of the survey: **(check only one)**

- Small multifamily building (2-4 units and not a single family attached house)
- Large multifamily building (5 or more units and not a single family attached house)
- Don't know

11b. If this is a large multi-family building, was HUD's list of pre-qualified buildings used to income qualify the building:

- a. Yes
- b. No
- c. Don't know

11.c If this is a large multi-family building, please indicate which description best describes its ownership:

- a. private owner
- b. private owner but HUD assisted
- c. Publically owned
- d. Condominium owned by occupants
- e. Other _____
- f. Don't know

12. Number of housing units in the building: _____

13. Number of housing units in the building that met WAP eligibility requirements: ____

14. Number of stories above grade: **(check only one)**

- 1
- 2
- 3
- 4
- 5-9
- 10-19
- 20 or more
- Don't know

Please list the number of stories above ground-level. If there are half-stories, round up to the nearest whole number.

15. Year building originally built: **(check only one)**

- 2000 or later
- 1990 to 1999
- 1980 to 1989
- 1970 to 1979
- 1960 to 1969

- 1950 to 1959
- 1940 to 1949
- 1930 to 1939
- 1920 to 1929
- 1910 to 1919
- 1900 to 1909
- Before 1900
- Don't know

Conditioned floor area at the time of weatherization:

16a. Heated floor area: _____ ft² Don't know

16b. Air conditioned floor area: _____ft² Don't know

Include the basement or common space only if it is intentionally conditioned (heated and/or cooled).

If you only know the total square footage of the building, please select "don't know" rather than listing the total square footage.

17. Primary fuel used to heat the building during the winter before weatherization: (***check only one***)

- Natural gas
- Propane/LPG
- Kerosene (#1 fuel oil)
- Fuel oil #2
- Fuel oil #4
- Fuel oil #6
- Electricity
- Steam (purchased from a central distribution system)
- Hot water (purchased from a central distribution system)
- Other (specify: _____)
- Don't know

18. Primary fuel used for water heating before weatherization: (***check only one***)

- Natural gas
- Propane/LPG
- Electricity
- Other (specify: _____)
- Don't know

19. Type of *primary* space-heating system before weatherization: **(check only one)**
- Central (ducted) warm-air furnace (forced-air or gravity, any fuel including electricity)
 - Heat pump
 - Built-in electric units (e.g., electric baseboards, ceiling heat)
 - Steam or hot water system (e.g., floor or baseboard radiators, convectors)
 - Floor, wall, or pipeless (ductless) furnace (e.g., floor or wall furnace)
 - Room/space heater (nonportable)
 - Portable space heater
 - Cooking stove
 - None
 - Don't know

Select "steam or hot water system" for buildings heated with boilers.

20. Was the primary space-heating system a central system? **(check only one)**
- Yes, a central system that supplied heat to all or most of the units in the building
 - No, each unit had its own heating system
 - Don't know

21. *Supplemental* fuel(s) used to heat the building during the winter before weatherization: **(check all that apply)**

- Natural gas
- Propane/LPG
- Kerosene (#1 fuel oil)
- Fuel oil #2
- Fuel oil #4
- Fuel oil #6
- Electricity
- Steam (purchased from a central distribution system)
- Hot water (purchased from a central distribution system)
- Other (specify: _____)
- Don't know

22. Type of *operable* air conditioning system present before weatherization: **(check all that apply)**

- Central air conditioner/heat pump
- Window/wall units
- Evaporative cooling system ("swamp coolers")
- None
- Don't know

23. Number of window/wall air conditioning units: **(check only one)**

- None
- 1-4
- 5-9

- 10-19
- 20-49
- 50 or more
- Don't know

AUDIT

24. Primary method used to select weatherization measures for this building (excluding health, safety, and repair measures and general heat waste measures): **(check only one)**

- Priority list
- Calculation procedure (e.g., spreadsheet, computerized audit)
- Other (specify: _____)

25. If a calculation procedure was used, the name of the procedure(s): **(check all that apply)**

- AK Warm
- EA-3
- EASY
- EA-QUIP
- HomeCheck
- Meadows
- REES
- REM/Rate
- SMOC-ERS
- TIPS
- TREAT
- Weatherization Assistant (NEAT/MHEA)
- WXEOR
- Other (specify: _____)
- Not applicable

DIAGNOSTICS AND INSPECTIONS

If you know when a diagnostic/inspection procedure was performed, please check the appropriate box(es) in the first three response columns. If a diagnostic/inspection procedure was performed but you do not know when, please check the box in the “Performed?” column.

If a diagnostic/inspection procedure was performed in ANY of the housing units in the building please check the appropriate category.

Diagnostic measurement or inspection	Diagnostic/inspection performed during:			
	Audit/house assessment	Measure installation	Post-inspection	Performed ?
Pressure diagnostics:				
26a. Unit-level blower door measurement (air leakage rate for individual dwelling units)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
26b. Building-level blower door measurement (total air leakage rate for the whole building)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
26c. Zonal pressure	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
26d. Room-to-room pressures (distribution system balancing)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
26e. Duct pressure pan measurements	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
26f. Duct blower measurement (duct air leakage rate)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
26g. Blower door subtraction meas. (duct air leakage rate)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Space-heating system:				
27a. Flue gas analysis (steady-state efficiency measurement)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
27b. Heat rise	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
27c. CO level in flue	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
27d. CO level of equipment room	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Space-heating system (continued):				
27e. Draft/spillage (normal operation)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
27f. Worst case draft/spillage (CAZ)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
27g. Safety inspection	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Air-conditioning system:				
28a. Refrigerant charge (e.g., superheat or subcooling)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
28b. Safety inspection	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Diagnostic measurement or inspection	Diagnostic/inspection performed during:			
	Audit/house assessment	Measure installation	Post-inspection	Performed ?
HVAC components:				
29a. Air handler flow rate	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
29b. Thermostat anticipator current	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Hot-water (water-heating) system:				
30a. Flue gas analysis (steady-state efficiency measurement)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
30b. CO level in flue	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
30c. CO level of equipment room	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
30d. Draft/spillage (normal operation)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
30e. Worst case draft/spillage (CAZ)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
30f. Hot water temperature	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
30g. Shower head flow rate	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
30h. Faucet flow rate	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
30i. Safety inspection	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other CO measurements:				
31a. Cook stove	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
31b. Kitchen	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
31c. Main living area	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other diagnostics and inspections:				
32a. Refrigerator energy use	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
32b. Exhaust fan air flow rate	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
32c. Infrared scanning (camera)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
32d. Radon testing	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
32e. Other (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
32f. Other (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
32g. Other (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Record the diagnostic measurements taken on **THIS** building: *(fill in all that were taken)*

For diagnostics that were performed multiple times, please provide the measurements that are closest to the pre-weatherization and post-weatherization conditions of the building.

Diagnostic measurement	Pre-weatherization	Post weatherization
Building air leakage (blower door measurement): ¹		
33a. Average air leakage rate per unit <u>based on unit-level testing</u>	cfm	cfm
33b. Total air leakage rate of the building <u>based on whole building test</u>	cfm	cfm
33c. House WRT outside pressure difference ²	Pa	Pa
Duct leakage (pressure pan measurements): ³		
34a. Sum of pressure pan readings ⁴	Pa	Pa
34b. Number of registers included in sum ⁵		
34c. House WRT outside pressure difference ⁶	Pa	Pa
Duct leakage (duct blower measurements) ⁷ :		
35a. Total duct leakage rate	cfm	cfm
35b. Duct leakage to the outside	cfm	cfm
35c. Duct WRT outside pressure difference ⁸	Pa	Pa

¹ Most agencies will report results in “a” or “b,” but not both.

² Report the pressure differential at which the blower door test was performed. A typical value is 50 Pascals. Do not report baseline pressure (typically less than 5 Pascals).

³ If building has more than one duct system, average the results across all systems that were tested.

⁴ Total all of the individual measurements taken at registers in the building. The value for each register should be between 0 and 50 Pascals.

⁵ Total the number of registers at which the test was performed.

⁶ Report the pressure differential at which the test was performed (from blower door). A typical value is 50 Pascals.

⁷ If building has more than one duct system, average the results across all systems that were tested. If total duct leakage (inside the building and to the outside) was measured with a Duct Blaster™ or similar equipment, report results in 35a. If duct leakage to the outside was measured, report this result in 35b. Most agencies will report results in “a” or “b,” but not both.

⁸ Report the house-to-outside pressure differential (from blower door) at which the leakage-to-outside test was performed. A typical value is 25 Pascals.

Steady-state efficiency (flue gas analysis): ⁹		
36a. Primary space-heating system	%	%
36b. Secondary space-heating system	%	%
36c. Hot water heater	%	%

MEASURES INSTALLED

If you know whether in-house crew or a contractor installed a given measure, please check the appropriate box in the first two response columns. If a measure was installed but you do not know whether it was installed by in-house crew or a contractor, please check the box in the “Installed?” column.

If a measure was installed in ANY of the housing units in the building please check the appropriate category.

Measure	Installed by		Installed?
	In-house crew	Contractor	
Air sealing work:			
37a. General house caulking and weatherstripping (e.g., doors, windows)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
37b. House air sealing emphasizing bypasses (leaks identified by auditor and/or crew without using a blower door)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
37c. House air sealing emphasizing bypasses (leaks identified by auditor and/or crew with aid of a blower door)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
37d. Air distribution system (duct) sealing and repair ¹⁰	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
37e. Repairs to broken windows, doors, or other major holes in the building shell	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
37f. Other air sealing work (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
37g. Other air sealing work (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Insulation:			
38a. Attic insulation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

⁹ If test was performed on multiple space- or water-heating systems, provide the average result across all systems that were tested.

¹⁰ Check 37d if duct sealing OR duct repair was performed. Check 41e if NEW ductwork was installed. Check 44c if new vents, grills or registers were installed.

Measure	Installed by		Installed?
	In-house crew	Contractor	
If attic insulation was installed, please provide quantity: 38b. _____ square feet or 38c. _____ pounds 38d. What was the R value of attic insulation prior to weatherization? _____ (Leave blank if unknown. Enter 0 if there was no existing insulation.)			
38e. Wall insulation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
If wall insulation was installed, please provide quantity: 38f. _____ square feet or 37g. _____ pounds			
38h. Floor insulation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
38i. Rim or band joist insulation (sill box)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
38j. Foundation wall insulation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
38k. Duct insulation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
38l. White roof coat	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
38m. Other insulation (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
38n. Other insulation (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Windows:			
39a. New window (justified because cost effective)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
39b. New window (justified for reason other than cost effectiveness)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
39c. If new windows were installed, please provide quantity: _____			
39d. Window glass repair or replacement not included under air sealing major holes in building shell (37e)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
39e. Repair of window sashes or frames	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
39f. Window screen repair/replacement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
39g. Window lock replacement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
39h. Storm window	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
39i. Window shading (e.g., awning, film, sun screen)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
39j. Other window treatments (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
39k. Other window treatments (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Doors:			

Measure	Installed by		Installed?
	In-house crew	Contractor	
40a. New door (justified because cost effective)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
40b. New door (justified for reason other than cost effectiveness)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
40c. Door lock (new or replacement)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
40d. Door or door framing repair not included under air sealing major holes in building shell (37e)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
40e. Storm door installed	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
40f. Other door treatments (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
40g. Other door treatments (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Central space heating systems (e.g., furnaces, boilers): ¹¹			
41a. New heating system (justified because cost effective)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
41b. New heating system (justified for reason other than cost effectiveness)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
41c. Heating system repair (e.g., controls, safety items, flues)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
41d. Space-heating system tune-up	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
41e. New ductwork installed	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
41f. Vent damper	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
41g. Intermittent ignition device	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
41h. Other space-heating system modification (specify: _____) ¹²	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
41i. Other space-heating system modification (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Air-conditioning systems:			
42a. New air conditioner (justified because cost effective)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
42b. New air conditioner (justified for reason other than cost effectiveness)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
42c. Air conditioner repair	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
42d. Air conditioner recharge/tune-up	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
42e. Ceiling or whole-house fans	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
42f. Other air-conditioning system modification (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
42g. Other air-conditioning system modification (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

¹¹ Include central heating systems installed through programs other than WAP, such as emergency heating system replacements funded by LIHEAP.

¹² Check 37d if duct sealing OR duct repair was performed. Check 41e if NEW ductwork was installed. Check 44c if new vents, grills or registers were installed.

Measure	Installed by		Installed?
	In-house crew	Contractor	
Ventilation:			
43a. New bathroom exhaust fan installed	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
43b. New kitchen exhaust fan installed	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
43c. Repair to kitchen or bathroom exhaust fan (including ductwork)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
43d. Whole-house ventilation system	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
43e. Other ventilation system improvements (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
43f. Other ventilation system improvements (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
HVAC accessories:			
44a. New programmable (setback) thermostat	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
44b. New standard thermostat	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
44c. Duct vents, grills, or registers ¹³	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
44d. Standard air filter	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
44e. High efficiency particulate arresting (HEPA) air filter	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
44f. Other HVAC accessories (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
44g. Other HVAC accessories (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Water-heating system:			
45a. New water heater (justified because cost effective)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
45b. New water heater (justified for reason other than cost effectiveness)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
45c. Water-heating system repair	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
45d. Water-heater tank insulation wrap	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
45e. Pipe insulation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
45f. Installed low-flow showerhead	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
45g. Installed low-flow device on faucet (aerator)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
45h. Water heater temperature reduction	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
45i. Other water heating system measure (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

¹³ Check 37d if duct sealing OR duct repair was performed. Check 41e if new ductwork was installed. Check 44c if new vents, grills or registers were installed.

Measure	Installed by		Installed?
	In-house crew	Contractor	
45j. Other water heating system measure (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other baseloads:			
46a. Indoor lighting (energy efficient bulb or fixture)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
46b. Outdoor lighting (energy efficient bulb or fixture)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
46c. Lighting (indoor/outdoor location not recorded)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
46d. Refrigerator (justified because cost effective)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
46e. Refrigerator (justified for reason other than cost effectiveness)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
46f. If new refrigerator is installed, how many old refrigerators were removed? _____			
46g. If new refrigerator is installed, how many old refrigerators were removed? _____			
46h. Other baseload measure (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
46i. Other baseload measure (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Health and safety and repair:			
47a. Smoke alarm	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

47x. Other health & safety or repair items (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
47y. Other health & safety or repair items (specify: _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Client education:			
48a. Did the occupants receive an in-home visit in which energy education was provided?	Yes No Don't know		
48b. Did the occupants participate in a classroom training in which energy education was provided?	Yes No Don't know		

SERC AND WIPP MEASURES INSTALLED

49. Please indicate whether any additional measures were installed in this building that were funded by the Sustainable Energy Resources for Consumers (SERC) Program and/or Weatherization Innovation Pilot Program (WIPP).

- SERC funded measures were installed
- WIPP funded measures were installed
- Both SERC and WIPP funded measures were installed
- The building was not part of a SERC or WIPP grant (skip to Q60)

If you know whether in-house crew or a contractor installed a given measure, please check the appropriate box in the first two response columns. If a measure was installed but you do not know whether it was installed by in-house crew or a contractor, please check the box in the “Installed?” column.

Measure	Installed by		Installed?
	In-house crew	Contractor	
RENEWABLE ENERGY			
50a. S1.1 Solar PV			
50b. S1.2 PV: Shingles			
50c. S1.3 Wind: Small-scale Residential			
50d. S1.4 Passive Solar Panel			
HOT WATER SYSTEMS			
51a. S2.1 Solar HW			
51b. S2.2 Tankless/On-demand HW			
51c. S2.3 Condensing HW			
51d. S2.4 Heat Pump/Hybrid HW			
51e. S2.5 Combination HW and Boiler			
51f. S2.6 Other hot water			
HVAC SYSTEMS			
52a. S3.1 Heat Pumps: Geothermal/Ground-Source			
52b. S3.2 Heat Pumps: Air			
52c. S3.3 Heat Pumps: Mini Split System Ductless			
52d. S3.4 Replacement of Improperly Sized HVAC Equipment			
52e. S3.5 Solar Thermal (Home Heat)			
52f. S3.6 Wood Pellet Stoves			
52g. S3.7 Ultra Cooling Systems			
52h. S3.8 Central AC Units			
52i. S3.9 Window AC Units			
52j. S3.10 Micro-combined Heat and Power			
52k. S3.11 High-efficiency Furnaces			
52l. S3.12 Heat Recovery Ventilators			
52m. S3.13 Biomass Thermal Units Installed			

Measure	Installed by		Installed?
	In-house crew	Contractor	
52n. S3.14 Evaporative Cooling System			
52o. S3.15 Vented Space Heating			
52p. S3.16 Solar Powered Attic Ventilation			
52q. S3.17 Energy Recovery Ventilator			
ROOFING: COOL ROOF			
53a. S4.1 Roofing: Cool Roof Technology Installed

59c. S10.3 Ceiling Fans			
59d. S10.4 LED Lights			
59e. S10.5 Energy Star Doors			

60. If a new space-heating system was installed, indicate the primary fuel used to heat the building during the winter after weatherization: **(check only one)**

- Natural gas
- Propane/LPG
- Kerosene (#1 fuel oil)
- Fuel oil #2
- Fuel oil #4
- Fuel oil #6
- Electricity
- Steam (purchased from a central distribution system)
- Hot water (purchased from a central distribution system)
- Other (specify: _____)
- Don't know

61. If a new space-heating system was installed, indicate the type of *primary* space-heating system after weatherization: **(check only one)**

- Central (ducted) warm-air furnace (forced-air or gravity, any fuel including electricity)
- Heat pump
- Built-in electric units (e.g., electric baseboards, ceiling heat)
- Steam or hot water system (e.g., floor or baseboard radiators, convectors)
- Floor, wall, or pipeless (ductless) furnace (e.g., floor or wall furnace)
- Room/space heater (nonportable)
- Portable space heater
- Cooking stove
- None
- Don't know
- Not applicable

Select "steam or hot water system" for buildings heated with boilers.

62. If a new space-heating system was installed and justified for reasons other than cost effectiveness, identify the reason it was replaced: **(check all that apply)**

- Cost of repair/retrofit exceeded 50% of replacement cost
- Existing heating system was not running
- Existing heating system was old (e.g., at end of life, too old to be repaired/adjusted)
- To switch fuel
- To convert from a steam system to a hot water system
- Heat exchanger was cracked
- Boiler was leaking
- Safety switches/controls were not operational and could not be repaired
- To replace unvented space heater(s)
- Existing heating system was not safe to run for other reason (specify: _____)
- Other (specify: _____)

63. Please identify any cost-effective energy-efficiency measures (not repair or health and safety measures) recommended by your audit procedures that you were unable to install in this housing unit because of insufficient funds: **(check all that apply)**

- Air sealing
- Duct sealing
- Attic insulation
- Wall insulation
- Floor/foundation insulation
- Duct insulation
- New window(s)
- Storm windows(s)
- Door(s)
- Storm door(s)
- New space-heating system
- Space-heating system tune-up
- New air conditioner(s)
- Air conditioner tune-up(s)
- HVAC thermostat
- New water heater
- Water heater insulation wrap
- Water flow devices (e.g., showerheads, faucet aerators)
- Lighting
- Refrigerator
- Other: _____
- None

This question only applies in states where there is a per-building spending limit. If there is not a per-building spending limit in your state, check "none."

64. If energy efficiency measures were checked in the previous question, provide a rough estimate of the cost for installing all the measures checked: \$_____

65. Please identify any repair or health and safety measures recommended by your audit procedures that you were unable to install in this building because of insufficient funds: **(check all that apply)**

- New window(s)
- Window glazing(s)
- Window screen(s)
- Window lock(s)
- Window repair
- New door(s)
- Door lock(s)
- Door repair
- New space-heating system
- Space-heating system repair

- New air conditioner(s)
- Air conditioner repair
- Ceiling or whole-house fan(s)
- Exhaust fan(s) or ventilation system
- New water heater(s)
- Water-heating system repair
- Refrigerator(s)
- Smoke alarm(s)
- CO monitor(s)
- Attic ventilation
- Roof, wall, floor, or foundation repair
- Plumbing/sewer repair
- Electrical repair
- Other: _____
- None

This question only applies in states where there is a per-building spending limit. If there is not a per-building spending limit in your state, check "none."

66. If repair or health and safety measures were checked in the previous question, provide a rough estimate of the cost for installing all the measures checked: \$_____

COSTS

67. Provide the total cost of weatherizing this multifamily building. Include **ALL** sources of funding. Do **NOT** include program management costs (e.g., intake, audits, final inspections or program administration) or installation-related overhead costs (e.g., vehicles, equipment and training).

--

68. Divide the total costs spent on this building (from Question 67) into the categories below.

68a. Material costs	
68b. Labor costs	
68c. Enter total cost if above categories are not known	
68d. Total (should match Q67 total)	[Auto-tally]

69. Divide the labor costs (from Question 68b) into the categories below. If labor costs for in-house crew are not tracked at the building level please leave 69a blank.

69a. In house crew labor ¹	
69b. Contractor labor	
69c. Profit/overhead ²	
69d. Enter total labor costs if above categories are not known	
69e. Total (should match Q68b total)	[Auto-tally]
¹ Crew-based labor costs should be based on the crew's fully loaded hourly rate (rather than the crew's take-home pay rate) which may include costs associated with medical and other insurance, workers compensation, vacations, and other benefits. These labor costs should include the crew's time for traveling to and from the job site.	
² If contractor profit and overhead are included in the contractor's material and labor costs, then leave 69c blank.	

70. Provide estimates of non-monetary contributions to this weatherization job.

70a. Volunteer hours ¹	
70b. Apprentice hours ²	
70c. Estimated value of material in-kind contributions	
70d. Estimated value of other in-kind contributions	
¹ An example of a volunteer is an unpaid person working on weatherizing a Habitat for Humanity Home. ² An example of an apprentice would be a student whose program of education requires hands-on, real-life work on weatherization jobs.	

71. Divide the total costs spent on this building (from Question 67) into the categories below.

71a. Cost effective energy-related measures (SIR > 1.0)	
71b. Health and safety and other non-cost effective measures	
71c. Incidental repairs	
71d. Enter total job cost if above categories are not known	
70e. Total (should match Q67 total)	[Auto-tally]

72. Divide the total costs spent on this building (from Question 67) into these funding source categories below.

72a. DOE normal appropriation/formula WAP funds ¹	
72b. DOE SERC funds	
72c. DOE WIPP funds	
72d. Non-DOE (leveraged) funds	
72e. Total (should match Q67 total)	[Auto-tally]
¹ This line includes ARRA funds for standard weatherization jobs.	

Energy Assistance Program (LI-EAP) funding should be considered Non-DOE funds if it is tracked separately.

73. Provide the amounts spent on the major measure categories below.

73a. HVAC measures	
73b. Water heating measures	
73c. Replacement windows and doors	
73d. All other building shell measures (insulation, air sealing, etc.)	

Housing Type Definitions

Single Family Detached – House that provides living space for one family or household, is contained within walls that go from the basement (or the ground floor, if there is no basement) to the roof, and has no walls that are shared (or built in contact) with another household. A manufactured house assembled on site is a single family detached housing unit, not a mobile home.

Single Family Attached – House that provides living space for one household, is contained within walls that go from the basement (or the ground floor, if there is no basement) to the roof, has at least one wall that is shared (or built in contact) with an adjacent household, and has an independent outside entrance. An attached house does not have any other households living above or below, and does not share basement or attic space with other housing units. Also, an attached house does not share a heating or cooling system with any other housing units. Examples include row houses, townhouses, condominiums and side-by-side duplexes that do not have shared attics, basements or HVAC equipment.

Small Multifamily (2-4 units) – Building with two to four housing units (i.e., building that is divided into living quarters for two, three, or four families or households) in which one household lives above or beside another and does not meet the single family attached house definition. Includes houses originally intended for occupancy by one family (or for some other use) that have since been converted to separate dwellings for two to four families. Typical arrangements in these types of living quarters are separate apartments downstairs and upstairs or one apartment on each of three or four floors.

Large multifamily (5 or More Units per Building) – Building with five or more housing units (i.e., building that contains living quarters for five or more families or households) that does not meet the single family attached house definition.

Mobile Home – Home that is built on a movable chassis, is moved to the site, and may be placed on a permanent or temporary foundation. If rooms are added to the structure, it is considered a mobile home if the added floor area is less than the mobile home's original floor area; otherwise, it is a single family detached house. A manufactured house assembled on site is a single family detached house, not a mobile home.

Shelter - Structure whose principal purpose is to house individuals on a temporary basis who may or may not be related to one another and who are not living in nursing homes, prisons, or similar institutional care facilities.
