NOTICE: To implement Section 254 of the Communications Act of 1934, as amended, the Federal Communications Commission has adopted changes to the federal low-income programs. The Commission has expanded the availability of these programs and the level of funding for discounts to low-income customers.

The following worksheet provides the means by which eligible telecommunications carriers will be reimbursed by the Universal Service Administrative Company (USAC) for their participation in these programs. Failing to collect the information, or collecting it less frequently, would prevent the Commission from implementing sections 214 and 254 of the Act, would thwart Congress' goals of providing affordable service and access to advanced services throughout the nation, and would result in eligible telecommunications carriers not receiving universal service support reimbursements in a timely fashion.

We have estimated that each response to this collection of information will take, on average, three hours for each respondent. Our estimate includes the time to read this data request, review existing records, gather and maintain required data, and complete and review the response. If you have any comments on this estimate, or on how we can improve the collection and reduce the burden it causes you, please write the Federal Communications Commission, AMD-PERM, Washington, D.C. 20554, Paperwork Reduction Project (3060-0819). We will also accept your comments on the burden estimate via the Internet if you send them to jboley@fcc.gov. Please DO NOT SEND the data requested to this e-mail address.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The FCC is authorized under the Communications Act of 1934, as amended, to collect the information we request in this form. If we believe there may be a violation or a potential violation of a FCC statute, regulation, rule or order, your worksheet may be referred to the Federal, state or local agency responsible for investigating, prosecuting, enforcing, or implementing the statute, rule, regulation or order. In certain cases, the information in your worksheets may be disclosed to the Department of Justice or a court or adjudicative body when (a) the FCC; or (b) any employee of the FCC; or (c) the United States Government is a party of a proceeding before the body or has an interest in the proceeding.

If you do not provide the information we request on the form, the FCC may delay processing of your worksheet or may return your worksheet without action.

The foregoing Notice is required by the Privacy Act of 1974, Pub. L. No. 93-579, December 31, 1974, 5 U.S.C. Section 552, and the Paperwork Reduction Act of 1995, Pub. L. No. 104-13, 44 U.S.C. Section 3501, et seq.

Pursuant to Section 54.405, all eligible telecommunications carriers (ETCs) are required to provide Lifeline service. In turn, these ETCs are permitted under Section 54.407 (Lifeline) or Section 54.413 (Link Up) to receive support for offering Lifeline service to qualifying low-income customers or reduced service-connection charges through Link Up. Pursuant to Section 54.403(c), carriers providing toll-limitation services (TLS)

for qualifying low-income subscribers will be compensated from universal service mechanisms for the incremental cost of providing TLS. FCC Form 497 is to be used to request reimbursement for participating in the low-income program.

Lifeline:

Description: The federal Lifeline Program benefits eligible low-income subscribers by reducing their monthly local phone charge by up to \$10.00 per month. In addition, enhanced or tribal customers may receive a reduction of up to \$35.00 in their monthly local phone charge.

Tier 1

All eligible subscribers will receive up to \$6.50 in federal support which is equal to the tariffed rate in effect for the primary residential End User Common Line charge of the incumbent local exchange carrier serving the area in which the qualifying low-income consumer receives service.

Tier 4

Additional federal Lifeline support of up to \$25 per month is available to eligible residents of tribal lands, as defined in 47 C.F.R. section 54.400(e), as long as that amount does not bring the basic local residential rate below \$1 per month per qualifying low income subscriber.

Toll Limitation Services (TLS):

Description: TLS is a service that carriers must provide to eligible low-income subscribers in order to be eligible to receive universal service support. This service includes toll blocking, which allows subscribers to block outgoing toll calls, and also toll control, which allows subscribers to limit in advance their toll usage per month or billing cycle. Carriers are required to provide at least one type of toll-limitation service, unless their state commission provides them with additional time to complete the network upgrades needed to provide TLS.

Support will be provided for the incremental cost of providing TLS. These costs include the costs that carriers otherwise would not incur if they did not provide TLS to a given customer. The incremental cost of TLS does not include the full retail charge for TLS that the carrier would charge other consumers. Moreover, joint and common costs associated with TLS are not supported by the Low Income support mechanism. In addition, Lifeline support in excess of the incremental cost of providing toll blocking will not be provided for switch upgrades.

- Line 16 Enter the dollar amount for the incremental cost of providing TLS. Carriers may be asked for supporting documentation justifying the incremental costs of providing TLS claimed on this Worksheet.
- Line 17 Enter number of eligible subscribers for whom TLS was initiated. Must be equal to or less than either the number of Lifeline low income subscribers or Link Up low income subscribers.
- Line 18 Enter the dollar amount of total TLS dollars claimed (multiply Lines 16 and 17). All amounts should be reported in whole dollars.
- Box 19 This is the Total Low-Income Support amount to be paid to Eligible Telecommunications Carriers for the reported month. Enter the dollar amounts from Lines 10 - total Lifeline, 15(c) - total Link Up and 18 - total TLS. Enter the sum of these dollars on the line labelled Total Dollars. All amounts should be reported in whole dollars. USAC projects each month's payment prior to receiving actual data and, upon receipt of actual data submitted on FCC Form 497, trues up the total dollars.
