

## **NON-SUBSTANTIVE CHANGE REQUEST FOR INFORMATION COLLECTION 3060-0979**

The Federal Communication Commission is seeking a non-substantive change request for information collection 3060-0979. The Commission is requesting this change request to this collection based on the following reasons:

The Commission completed an extensive review of collection 3060-0979 and has determined that with its last submission to OMB that the number of respondents, responses and annual burden hours were **extremely over estimated**. The Commission wants OMB inventory to reflect a more accurate burden for this information collection. Therefore, we are adjusting/decreasing the number of respondents after our extensive analysis by 285,000, responses by 285,000 and burden hours by 142,500 to more accurately account for the audit letters. There are no program changes to this collection.

The supporting statement has been updated to reflect the more accurate burdens.
