REASON FOR THE APPLICATION

Indicate whether this Original Application is being filed due to a New Business, a Change of Proprietorship, or a Change in General Partner(s) by checking the appropriate box. A Change of Proprietorship may be the result of brand new ownership and a proprietor unrelated to the predecessor (ABC Inc. takes over from DEF Inc), or may be the same individual(s) changing entity type (from a sole proprietor to an LLC, from a partnership to a corporation). A Change in General Partner(s) is when any partner in a general partnership changes, or when the general partner in a limited partnership changes. If only limited partners are changing, then you need to file an amended application only. If you are filing for either a Change of Proprietorship or Change in General Partner(s), you need to identify the permit number(s), registry number(s), and name and address of the predecessor company.

Application Information

NON CONTIGUOUS OPERATIONS

A non-contiguous premises situation occurs when a wine premises proprietor wishes to use multiple nearby locations which are physically separated from each other. All locations in a non-contiguous premises situation must be part of one integrated operation and should not be stand alone operations within themselves. Typically, each location is in the same city, state, and zip code (unless the additional location(s) is for storage only), and no more than 10 miles apart from one another. If you are including one or more non-contiguous premises in addition to your primary premises, you must answer "Yes" and then list those addresses in the block provided.

* Does this application include one or more non-contiguous premises locations in addition to your primary premises? Yes No

If Yes, please provide the physical address for each non-contiguous location other than the primary address shown under the Premise Address fields provided earlier in this application.

WINERY INFORMATION

This information pertains to your proposed wine premises and operations to be conducted at those premises. Please refer to the field specific Help provided for additional details on what is required for each question.

* Wine Premises Description: Describe each tract of land comprising the wine premises. Description must be by directions and distances, in feet and inches, with sufficient particularity to enable ready examination of the boundary of the wine premises. [?](#)

* Wine Premises Security: Describe the means employed to afford security of the wine premises. [?](#)

* Taxpaid Wine Storage: Describe where and how any taxpaid wine will be stored on the premises and the means used to segregate and identify taxpaid wine from un taxpaid wine.

*** Wine Premises Alternating Areas:** Describe any alternating areas. Each wine premises building must be described as to size, construction, and use. Buildings not used for the wine operations must be described only as to size and use. If wine premise consists of a partial building, rooms or floors, each must be described separately. Means of ingress and egress from the wine premise to adjoining portions must be described.

*** Wine Premises Building:** Each wine premises building must be described as to size, construction, and use. Buildings not used for the wine operations must be described only as to size and use. If wine premises consists of a partial building, rooms or floors, each must be described separately. Means of ingress and egress from the wine premises to adjoining portions must be described.

*** Disclosure:** If this application is not for a bonded wine premises in which production operations will be conducted and, thus a Federal Alcohol Administration Act basic permit is not required, would you agree to the listing of your name in a TTB publication which may be distributed to the general public upon request? A "No" response will have no effect on the consideration of this application. Under U.S.C. 6103, you have a legal right not to give this release

*** Describe any operation which will involve the use of spirits.**

*** Volatile Fruit-Flavor Concentrate Operations:** For volatile fruit-flavor concentrate producers, submit a step-by-step description of the production process, commencing with obtaining the juice through each step of the process to removal of the concentrate from the system.

*** Other Operations:** Describe any other operations not specifically authorized by Part 24 that are to be conducted on the wine premises. This must include a list of the premises and any major equipment used, and a statement as to the relationship, if any, of the operation to the wine operations. These other operations need not be restricted to alcohol-related businesses.

ENVIRONMENTAL INFORMATION

Most of the questions here are self-explanatory and refer to the regulated operations at the premises address. The request for number of employees is asking for the number located at the premises address where the regulated operations will take place. You should list the name of the Power Company when asked for the source of heat and power. Examples of Liquid Waste include spilled wine and wash water. Examples of Solid Waste include broken glass, cardboard, and grape must. You may state "Not Applicable" in any fields where there is no information that applies. If you are filing an original or amended application that includes a non-contiguous premises situation (explained under Wine Premises Description in the Wine Information Section), you must list each non-contiguous address (including the primary wine premises address) under each question and answer the question for each location.

WINE BOND

A wine premises proprietor (except for a TPWBH) filing an original application must submit a wine bond with sufficient bond coverage, which protects TTB in case a proprietor is unable to satisfy their excise tax liability. You may also file a new bond to reflect a new penal sum, switch in bond category (Surety, Cash, T-Note, T-Bill), or a change in surety company. If you are filing for a Change of Location, you may either submit a Superseding Wine Bond within this table or a Consent of Surety form earlier in this application. In most cases, a new winery will have only one bond. However, a winery is allowed to have multiple bonds that together provide sufficient bond coverage. You must have a primary bond for each commodity type that requires one. If you have more than one bond, add a row and enter the appropriate information for each additional bond. ALTERNATION OF PREMISES

An Alternation of Premises refers to multiple operations being conducted at a location with alternating use of premises, equipment, or tanks between those operations. These operations must be between two or more different approved production commodity types, such as a winery, brewery, distillery, or TPWBH. For example, you may have both your winery and brewery alternate use of certain tanks and a bottling line. In these instances, you must qualify as both commodity production types, and dedicate a portion of each of the premises as 'permanent dedicated premises' that will never be alternated. You must also identify the portion or area(s) of the premises which will alternate. You will be required to complete the Consent of Surety information in this application and submit a diagram showing the dedicated and alternating area(s), along with an Alternating Proprietorship Agreement if operations are of different ownership. You must add a row to show each additional alternation.

ALTERNATION OF PROPRIETORS

An Alternating Proprietorship (AP) occurs when a production facility (winery, brewery, distilled spirits plant) is used by more than one proprietor. This may be done to better utilize space in an existing location or to allow new entrants into an industry to avoid having to purchase their own equipment and buildings. All alternating parties are individually responsible for all aspects of the operations as a winery in accordance with Industry Circular 2008-4, which can be accessed at the [TTB website](#). Click [here](#) for a summary of responsibilities. You are required to submit an Alternating Proprietorship Agreement and a Diagram showing the area(s) that will be alternated, as well as any area(s) that will be dedicated and never alternate, if any, and any taxpaid areas. You may add a row to add additional alternations.

A Request for Special Permission/Authorization is when an applicant or industry member asks for approval of an activity that is not covered by a regulation. A General Notification is when an industry member is required to give notice of their intent to conduct certain operations, but where direct approval by TTB is not required. You may add a row for each additional request or notification you wish to submit with this application.
