Title: Usual and Customary Business Records Relating to Denatured Spirits.

OMB Control Number: 1513–0062.

TTB Recordkeeping Requirement Number: 5150/1.

Abstract: Denatured spirits are used for nonbeverage industrial purposes in the manufacture of personal household products. These records are maintained at the premises of the regulated entity and are routinely inspected by TTB personnel during field tax compliance examinations. These examinations are necessary to verify that all specially denatured spirits can be accounted for and are being used only for purposes

authorized by laws and regulations. By ensuring that spirits have not been diverted to beverage use, tax revenue and public safety are protected. There is no additional recordkeeping imposed on the respondent as these requirements are usual and customary business records.

Title: Manufacturers of Nonbeverage Products—Records to Support Claims for Drawback.

OMB Number: 1513–0073.

TTB Recordkeeping Requirement Number: 5530/2.

Abstract: The recordkeeping requirements included in TTB REC 5530/2 are part of the system necessary to prevent diversion of drawback spirits to beverage use by maintaining accountability over these spirits. Required source records kept at the manufacturing plant include information about distilled spirits received, gauge records, records of receipts, the identification of the person from whom received, evidence of the taxes paid on the spirits, the date the spirits were used, the quantity and kind used in each product (including usage of Puerto Rican and Virgin Islands spirits for compliance with the Caribbean Basin Initiative), receipt and usage of other ingredients (to validate formula compliance), inventory records, records of recovered alcohol, the quantity of intermediate products transferred to other plants, the disposition of each nonbeverage product produced, and the purchasers (except for retail sales). These elements make it possible to trace spirits using audit techniques, thus enabling TTB officers to verify the amount of spirits used in nonbeverage products and subsequently claimed as eligible for drawback of tax. The record retention requirement for this information collection is 3 years.

Current Actions: We are submitting this information collection for extension purposes only. The information collection, estimated number of respondents, and estimated total annual burden hours remain unchanged.

Type of Review: Extension of a currently approved collection.

Title: Proprietors or Claimants Exporting Liquors.

OMB Number: 1513-0075.

TTB Recordkeeping Requirement Number: 5900/1.

Abstract: Distilled spirits, wine, and beer may be exported from bonded premises without payment of Federal excise taxes, or, if the taxes have been paid, the exporter may claim drawback (refund) of the taxes paid. This export drawback allows the manufacturer to recover the amount of the tax paid to the government. Obviously, substantial losses in tax revenues would occur if untaxed liquors were allowed to enter the domestic market, or if the government allowed drawback to be claimed on liquors used for domestic consumption. This recordkeeping requirement makes it possible to trace spirits using audit techniques, thus enabling TTB officers to verify the amount of spirits, beer, and wine eligible for exportation without payment of tax or exportation subject to drawback. The retention requirement for this information collection is 2 years.

Current Actions: We are submitting this information collection for extension purposes only. The information collection, estimated number of respondents, and estimated total annual burden hours remain unchanged.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit.

Estimated Number of Respondents: 120.

Estimated Total Annual Burden Hours: 7,200.

Title: Special Tax Renewal Registration and Return/Special Tax Location Registration Listing.

OMB Number: 1513-0113.

Abstract: The statutory section of chapter 52 of 26 U.S.C. authorizes the collection of an occupational tax from persons engaging in certain tobacco businesses. In the Internal Revenue Code, 26 U.S.C. 5276 requires persons to register and/or pay a special occupational tax before conducting business in certain tobacco categories. TTB F 5630.5R is used both to compute and report the tax, and as an application for registry as required by statute. TTB F 5630.5R is computer generated by TTB with known taxpayer identifying

information (e.g., name, trade name, address, employer identification number, etc.) along with tax computations reflecting tax class(es), number of business locations, tax rate(s), and total tax due. The taxpayer supplies any inaccurate or incomplete information.

Current Actions: We are submitting this information collection for extension purposes only. The information collection, estimated number of respondents, and estimated total annual burden hours remain unchanged.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit.

Estimated Number of Respondents: 400.

Estimated Total Annual Burden Hours: 100.

Dated: March 1, 2011.

Director, Regulations and Rulings Division.
