## A. Matching Funds Summary

**Instructions:** Detailed instructions and a sample chart can be found in the CDFI Program Guide to the Combined Application for Financial Assistance or Technical Assistance. Review those carefully and have Matching Funds documents available when completing this chart. Remember the following important points:

- 1) Fill in only one "Amount" column for each row. The date entry should correspond to the amount column and match status as explained in the Application instructions.
- 2) If the Matching Funds are from a state and/or local government agency, Applicants must provide the contact name, title, and phone number of the Matching Funds source in the far right column. Use same column for any additional comments relevant to the Matching Funds entry.
- 3) The appropriate Retained Earnings calculator (charts B1, B2, or B3) must be completed if the Applicant includes a Retained Earnings entry in this chart.
- 4) If additional rows are needed insert them in the middle of the table so that the "Total" formulas are automatically updated.

Type	Amount In-Hand	Amount Committed	Amount to be Raised	Date	Comments & Contact Data	Total
Equity Investment						\$ -
Grant						\$ -
Loan						\$ -
Secondary Capital						\$ -
Shares/Deposits						\$ -
Retained Earnings						\$ -
<b>TOTALS</b>	\$ -	\$ -	\$ -			\$ -

## B1. Retained Earnings Calculator (Non-Regulated Entities)

**Instructions:** This chart must be completed by any non-regulated (for- or non-profit) Applicant proposing to use retained earnings as a matching funds source.

The Applicant must demonstrate in this chart that the proposed retained earnings meet the following criteria:

- (1) No federal funds are being proposed as part of the retained earnings.
- (2) Applicant is not double-counting match fund sources in Chart A (list of match fund sources).
- (3) Matching Funds meet applicable FY guidelines (see NOFA).

The Applicant's electronic signature on SF-424 attests that all information reported in the Retained Earnings chart is accurate at the time of application. To the extent possible, the Fund will verify the table entries against the financial statements provided with the application. The information reported here is subject to audit; therefore, Applicant must be accurate in reporting Federal income and associated expenses.

Non-regulated Applicants have two options for calculating Retained Earnings:

- (A) The increase in Retained Earnings over the Applicant's most recently completed fiscal year; or
- (B) The annual average increase in Retained Earnings over the Applicant's three most recently completed fiscal years.

Fill out the data for each of the fiscal years.

- Yellow cells automatically calculate based on entries made in the green cells. Complete green cells for each fiscal year using line items from the Applicant's financial statements and historical accounting records.
- The chart assumes the Applicant's most recently completed fiscal year is 2009. If the most recently completed fiscal year is 2010, adjust the fiscal years by changing 2009 to 2010 – the other years will update automatically.
- Rows A and E should be found on the Income Statements. Other rows may need to be calculated or researched from accounting records.
- Itemize income associated with federal sources under Line B. Itemize income that the Applicant is also using as a source of match (as reported on Chart A) on line C. If additional rows are needed for reporting itemized data (Line B and Line C), add rows from middle of the section in order to maintain the sum formula on line B or C.

A positive result in either of line J Col 3 or Line K Col 3 can be proposed as "Retained Earnings" match in Chart A.

## B2. Retained Earnings (Credit Unions)

**Overview:** This chart must be completed by any credit union Applicant proposing to use retaining earnings as a source of matching funds. The Applicant's electronic signature provided upon submission of the SF-424 (application form) attests that all information reported in the Retained Earnings chart is accurate at the time of application. To the extent possible, the Fund will verify the table entries against the Applicant's 5300 Report data, including the PCA Net Worth Calculation Worksheet.

**Options:** Credit Unions have three options for calculating Retained Earnings:  
 (A) The increase in Retained Earnings over the Applicant's most recently completed fiscal year;  
 (B) The annual average increase in Retained Earnings over the Applicant's three most recently completed fiscal years; or  
 (C) Retained Earnings accumulated since the Applicant's inception.

**Eligibility:** The Applicant must demonstrate in this chart that the proposed retained earnings meet the following criteria:  
 (1) No federal funds are being proposed as part of the retained earnings.  
 (2) Applicant is not double-counting match fund sources in Chart A (list of match fund sources).  
 (3) Matching Funds meet applicable FY guidelines (see NOFA).

### Tips on Filling out the Table

- The chart assumes the Applicant's most recently completed fiscal year is 2009. If the most recently completed fiscal year is 2010, adjust the fiscal years by changing 2009 to 2010 – the other years will update automatically.
- Complete green cells under each applicable column heading using line items from the Applicant's 5300 Call Reports and other historical accounting records. Yellow cells automatically calculate based on entries made in the green cells.
- For options (A) or (B) fill in all four fiscal years of data (Col 2, 3, 4, and 5). For option (C), the "Since Inception" option, the Applicant need only complete column 5, the most recent FYEnd data to calculate the "Since Inception" amount.
- Lines D and E are provided to help the Applicant back out the items mentioned in the Eligibility section above. Itemize any federal sources on the lines below D. Itemize any funds that are reported on the Chart A Matching Funds request on lines below E. The entries will be totaled above. If additional rows are needed for reporting itemized data for Lines D and E, add rows from the middle of the section in order to maintain the sum formulas within the chart.

**Additional Requirement for Option (C):** For Insured Credit Unions using option (C), the Applicant must ALSO increase its member and/or non-member shares or total loans outstanding by an amount that is equal to the amount of Retained Earnings that is committed as Matching Funds by the end of the Awardee's second performance period, as set forth in its Assistance Agreement. For example, if Retained Earnings since inception is equal to \$50,000 and the Applicant designates the entire amount as match, the Applicant must increase its total member/non-member shares or loans outstanding by \$50,000. Note the following:

- The Fund will assess the likelihood of this increase during the application review process. An award will not be made to any Applicant that has not demonstrated that it has increased shares or loans by at least 25 percent of the requested FA award amount between December 31, 2008 and December 31, 2009, as demonstrated by the corresponding NCUA report.
- An Applicant using option (C) must discuss its strategy for raising the required shares or loans in the Comprehensive Business Plan component of the FY 2011 application.

### B3. Retained Earnings (Banks, Thrifts, and Holding Companies)

**Instructions:** This chart must be completed by any bank, thrift, holding company Applicant proposing to use retained earnings as a matching funds source.

The Applicant's electronic signature on SF-424 attests that all information reported in the Retained Earnings chart is accurate at the time of application. The Fund will verify the table entries against the financial statements provided with the application or data on the FFIEC website. The information reported here is subject to audit; therefore, Applicant must be accurate in reporting Federal income and associated expenses.

Bank, thrift, and holding company Applicants have two options for calculating Retained Earnings:

- (A) The increase in Retained Earnings over the Applicant's most recently completed fiscal year; or
- (B) The annual average increase in Retained Earnings over the Applicant's three most recently completed fiscal years.

Fill out the data for each of the fiscal years.

Yellow cells automatically calculate based on entries made in the green cells. Complete green cells for each fiscal year using line items from the Applicant's financial statements and historical accounting records.

The chart assumes the Applicant's most recently completed fiscal year is 2009. If the most recently completed fiscal year is 2010, adjust the fiscal years by changing 2009 to 2010 – the other years will update automatically.

Rows A and E should be found on the Income Statements. Other rows may need to be calculated or researched from accounting records.

Itemize income and expenses associated with federal sources under Line B. Itemize income that the Applicant is also using as a source of match (as reported on Chart A) on line A. If additional rows are needed for reporting itemized data (Line B and Line C), add rows from middle of the section in order to maintain the sum formula on line B or C.

A positive result in either of line J Col 3 or Line K Col 3 can be proposed as "Retained Earnings" match in Chart A.
