

SUPPLEMENTARY INFORMATION:**Background**

Under 49 U.S.C. 31136(e) and 31315, FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption.” The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381.

Exemption Decision

This notice addresses 22 individuals who have requested renewal of their exemptions in accordance with FMCSA procedures. FMCSA has evaluated these 22 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

Michael L. Ayers
Paul V. Daluisio
Tracy A. Doty
Matthew A. Ericson
Charles W. Hillyer
Stephen R. Jackson
Wesley J. Jenkins
Richard H. Johnson
Darrel R. Martin
James W. McGhee
James P. Mittlefehldt
Robert E. Morrison
Pahl M. Olson
Craig P. Osborn
Wayne Resch
James L. Rooney
James E. Russell
Robert C. Sellers, Jr.
Richard L. Sturk
Wayne A. Whitehead
Charles F. Wotring
Forrest L. Wright

The exemptions are extended subject to the following conditions: (1) That each individual has a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provides a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retains a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local

enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31136(e) and 31315, each of the 22 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (74 FR 15884; 74 FR 7097). Each of these 22 applicants has requested renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the standard specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

Request for Comments

FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31136(e) and 31315. However, FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by April 20, 2011.

FMCSA believes that the requirements for a renewal of an exemption under 49 U.S.C. 31136(e) and 31315 can be satisfied by initially granting the renewal and then requesting and evaluating, if needed, subsequent comments submitted by interested parties. As indicated above, the Agency previously published notices of final disposition announcing its decision to exempt these 22

individuals from the vision requirement in 49 CFR 391.41(b)(10). The final decision to grant an exemption to each of these individuals was made on the merits of each case and made only after careful consideration of the comments received to its notices of applications. The notices of applications stated in detail the qualifications, experience, and medical condition of each applicant for an exemption from the vision requirements. That information is available by consulting the above cited **Federal Register** publications.

Interested parties or organizations possessing information that would otherwise show that any, or all, of these drivers are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.

On January 13, 2011, FRA published a 60-day notice in the **Federal Register** soliciting comment on this ICR for which the agency was seeking OMB approval. 76 FR 2441. FRA received no comments in response to this notice.

Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30 day notice is published. 44 U.S.C. 3507 (b)-(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. Title: Reflectorization of Freight Rolling Stock.

OMB Control Number: 2130-0566.

Type of Request: Extension of a currently approved collection.

Affected Public: Businesses.

Abstract: The Federal Railroad Administration (FRA) issued this

regulation to mandate the reflectorization of freight rolling stock (freight cars and locomotives) to enhance the visibility of trains in order to reduce the number and severity of accidents at highway-rail grade crossings in which train visibility acted as a contributing factor. The information collected is used by FRA to ensure that railroads/car owners follow the schedule established by the regulation for placing retro-reflective material on the sides of freight rolling stock (freight cars and locomotives) in order to improve the visibility of trains. The information is also used by FRA to confirm that railroads/car owners meet the prescribed standards for the application, inspection, and maintenance of the required retro-reflective material.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with part 211 of title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance from certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

American Short Line and Regional Railroad Association

[Waiver Petition Docket Number FRA-2009-0078]

In response to the American Short Line and Regional Railroad Association's (ASLRRRA) July 16, 2009, petition in this docket, FRA granted certain identified ASLRRRA member railroads limited conditional relief from the Federal hours of service law (HSL; 49 U.S.C. chapter 211). Specifically, FRA granted the identified ASLRRRA member railroads listed on ASLRRRA's "Seconded Amended Exhibit A" in this docket relief from 49 U.S.C. 21103(a)(4)(A). (See FRA letter dated March 5, 2010; document number—0008.1 in docket). Section 21103(a)(4)(A) mandates that train employees have 48- or 72-hour off-duty periods following the initiation of on-duty periods on either 6 or 7 consecutive days.

By a letter dated November 29, 2010, ASLRRRA notified FRA of an error in its "Second Amended Exhibit A" upon which FRA based its initial grant of relief. (See document number—0091.1 in docket). Specifically, ASLRRRA notified FRA that one ASLRRRA member railroad, the Brownsville & Rio Grande International Railroad (BRG), was inadvertently omitted from the amended exhibit. Noting that BRG had properly executed the application agreeing to participate in ASLRRRA's petition and proposed pilot project, and had already filed evidence of its employee concurrence with the waiver in the docket as required by FRA's March 5, 2010, letter, ASLRRRA requested that FRA add BRG to the list of railroads participating in the waiver. FRA has done so, subject to public comment on BRG's participation in the waiver.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate
