USITC No Participation Survey

Introduction to Survey

As part of its work supporting the Section 337 operations of the U.S. International Trade Commission, the Office of Unfair Import Investigations (OUII) may participate in an investigation as an independent party with no commercial interest in the outcome. Since January 2011, OUII's level of participation in a given investigation has fallen into one of three categories: **Full Participation** on the range of issues in the investigation, **Selective Participation** on some issues, or **No Participation** on any issues.

This survey seeks feedback about OUII's level of participation in this investigation. We are asking for a single response from each participant. For parties that were represented by outside counsel, we ask that the survey be completed by the attorney who was most involved in this investigation. For parties represented by in-house counsel or a corporate representative, we ask that the survey be completed by the attorney or representative who was most involved with the investigation. This survey should take less than 15 minutes to complete.

19 U.S.C. §§ 1335 and 1337 authorize collection of this information. The survey results will be used to help the Commission decide the appropriate level of OUII participation in Section 337 investigations. Your disclosure of the information is voluntary. Your individual response will be kept confidential, and will not be publicly disclosed except as required by law.

To navigate through this survey, please use the following interface buttons only:

Click the **Next** button to continue to the next page.
Click the **Back** button to return to the previous page.
Click the **Send Answers** button to submit your survey.

Do not use your browser's Forward and Back arrows or the Enter or Backspace keys on your keyboard to navigate; you risk losing information you have already entered. As you navigate through the survey you may notice that a question number is missing. This is intentional and is based on the way in which you answered a previous question (e.g., your affiliation).

There are a number of text boxes following individual questions. These are for any additional comments you may have and are all optional.

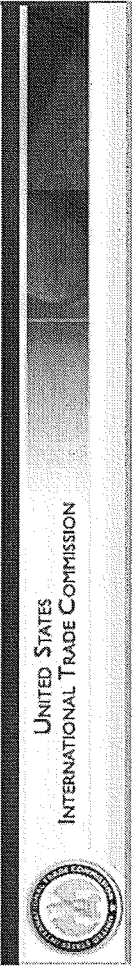

In addition, on each screen of the survey is an "Uncheck All Radio Buttons" option. This is to permit resetting of all radio buttons on that page in case you did not intend to select any for a particular question.

Finally, after you start the survey, if you find you need to complete it at a later time, you should click the Finish Later button. Clicking on this button generates a URL that contains a unique identifier for your partially completed survey. This URL allows you to return to and complete the survey with all of the previously entered answers intact. You may also send the URL to another user to complete the same survey; all the previously entered answers will still be there.

When the URL appears, bookmark this page (or add to favorites) before you close your browser if you plan to complete the survey yourself later on. Copy the URL and paste it into a message if you plan to forward it to someone else to complete.
