**DEPARTMENT OF DEFENSE & COAST GUARD**– for exchange of data concerning registration, classification, induction, and examination of registrants and for identification of prospects for recruiting.

4. We know of no duplication of data, including Selective Service Number.
5. We know of no other system or records comparable to the information base collected to satisfy the registration requirements by Proclamation 4771 and 32 CFR 1615.1: that males born after December 31, 1959, who have reached their 18<sup>th</sup> birthday, register.
6. N/A. The information collection does not involve small organizations.

N/A to SSS-1 (DOS), SSS-(UT1), SSS-1M (UPO), and SSS Form 2

The SSS-1(DOS), SSS-1M (UPO), SSS Form 1 (UT1), and the SSS Form 2 are generated from the SSS Registration Program.

Specially coded forms are used for such programs as:

- A. The Registration Forms are prepared in an original only by the registrant.
  - B. SSS Form 1 (UPO), SSS Form1 (UT1) and SSS Form 1 (DOS). A three-character code is used in the right-hand corner of the SSS Form 1 for these as well as other special registration programs.
    - a. Completed SSS Form 1 (UT1) and SSS Form 1 (DOS) forms will be submitted to the registrar who will verify the entries, including the signature, accept the completed form from the registrant, and initial and date the form.
    - b. Completed SSS Forms 1M (UPO) are mailed to the Selective Service System by the registrant.
  - C. N/A, no unresolved problem.
  - D. Public contacts and comments. Comments are obtained from Congress, OMB, and the public through the usual channels, such as the Federal Register, periodic reports to OMB and the Congress, and the annual budget review process. Comments and SSS responses are furnished upon request.
10. The information collected to update registrants' files is used only according to the Privacy Act Notification printed on each form supported by this Supporting Statement.

Source documents are maintained in a controlled environment during preparation for computer processing. Thereafter, the information is maintained on magnetic tapes and microfilms which are stored in a secure facility. The paper source documents are then macerated. The information collection complies with the Privacy Act of 1974, OMB Circular A-108, and OMB Matching Guidelines dated May 11, 1982.

11. Information collected in the forms is necessary to determine if the respondent is exempt from the registration requirement. The MSSA specifies exemptions which are allowed, and the questions are in conformance with the provisions of the governing regulation.

12. Estimates of Annualized Cost:

During CY 10, SSS received 2,343,373 registrations. Of this total, 1,313 were SSS Form 2s which were modified by the respondent to serve as registrations, approximately 130 were SSS Form 1s (DOS), approximately 866 were SSS Form 1s (UT1) and approximately 101,242 were SSS Form 1Ms (UPO).

USPS Processing:	\$ 64,794.09
Personnel Cost	\$ 32,896.01
Printing Cost:	\$ <u>211,199.00</u>
Total	\$ 308,889.10

Personnel Resources:

DMC Production FTE	=	44
Hours per FTE	=	1,776

(SSS Form 1 (UT1), SSS Form 1 (DOS), SSS Form 1M (UPO), and SSS Form 2 account for about 4% of all registrations receipts or workload.)

13. Estimate of the burden of the collection of information:

Respondents: 2,343,373

Frequency: One Time

Burden per Respondent: .0333 hour

Total estimated annual  
Public burden: 1,302 hours =  $\frac{(2,343,373 \times .0333)}{60}$

There is no remuneration to persons supplying the information.

14. Since this was last done, there has been no significant change in the SSS Form 1. However, the majority of registrations are received through automated processes, greatly reducing the public burden.

15. Plans for tabulation and publication include ad hoc and quarterly releases of registration information to the media, as well as the Annual Report of the Director to the Congress.

**B. COLLECTION OF INFORMATION EMPLOYING STATISTICAL METHODS.**
