Northeast Fishing Vessel Annual Cost Survey

Social Science Branch
Northeast Fisheries Science Center
DOC/NOAA/NMFS
166 Water Street
Woods Hole, MA 02543

OMB control no:

Expiration Date:

Instructions: This survey is designed to record your annual vessel fishing costs. The survey consists of five sections. Section A asks questions about your vessel. Please record the annual costs associated with only the vessel identified in section A. If you own more than one vessel, certain costs may need to be divided among vessels (for example, divide office expenses by the number of vessels owned). Record the combined annual cost for all fisheries you may have participated in this fiscal year. In section B, you are asked to provide cost information associated with improvements, quota transfer/lease, and repair/maintenance and crew compensation. Section C asks question on your fishing business related costs. In section D, you are asked to report any other annual costs not reported in sections B or C. Finally, Section E asks questions on the lay system. This survey does not have questions about trip costs such as fuel, ice, bait, and supplies. This type of information is collected by observers at sea.

IMPORTANT: *if you do not know the cost of a particular item (but an expense was incurred), please leave the question blank. If this expense does not apply to your vessel, please check the "not applicable" box.*
