Dear Federal Northeast Seafood Dealer Permit Applicant:

Enclosed is a *Federal Northeast Seafood Dealer Permit Application* for permit year 2009 (January 1, 2009 – December 31, 2009). Species that require a Federal Northeast seafood dealer permit (NE dealer permit) are listed on the reverse side of this letter. All dealers of species covered under a Federal Fisheries Management Plan (FMP) or dealers purchasing from vessels permitted in the NE region, must have been issued and have in their possession, a valid NE dealer permit for that species. All dealers must submit detailed reports electronically for all receipts and purchases, with the exception of dealers holding only a NE dealer permit for American lobster and/or Atlantic tunas.

Dealers who purchase Highly Migratory Species (HMS), specifically Atlantic bigeye, albacore, yellowfin, and skipjack (BAYS) tunas, Atlantic shark, and/or Atlantic swordfish, must report these species electronically if permits for NE species requiring electronic reporting are also held. If dealers do not have NE permits, reports for HMS should be submitted to the local port agent or call John Mahoney at (508) 984-0063 if you have any questions. Atlantic tuna dealers who purchase or receive domestic bluefin tuna have separate reporting requirements. Call (978) 281-9140 if you have questions regarding bluefin tuna reporting.

- Existing dealers** (Part 1, below) - If you already have a NE dealer permit, enclosed is a pre-printed application.
- New dealers** (Part 2, reverse side) – If you are a new seafood dealer and have not been issued a NE dealer permit previously, an initial NE dealer permit application is enclosed.

The information requested on this form is not confidential and will be available to the general public upon request.

The Paperwork Reduction Act requires potential respondents for a dealer/processor permit be notified of certain information regarding their rights and the burden associated with applying for a Federal dealer/processor permit. One of the regulatory steps taken by the National Marine Fisheries Service (NMFS) to carry out conservation and management objectives is the requirement of a permit for users of the resources. All the fisheries included on this application require a permit to purchase, or otherwise receive for transport, species harvested by the owner or operator of a fishing vessel issued a Federal fisheries permit for these species. Section 303(b)(1) of the Magnuson-Stevens Fishery Conservation and Management Act (MSFCMA) specifically recognizes the need for permit issuance.

The purpose and use of permits is to: (1) register fish dealers and processor, (2) list the characteristics of dealer/processor operations, (3) exercise influence over compliance (e.g. withhold issuance pending collection of unpaid penalties), (4) provide a mailing list for the dissemination of important information to the industry, (5) provide a universe for data collection samples, and (6) obtain first purchase information on landings to evaluate the biological, economic and social implications of management measures.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number. Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining data needed, and completing and reviewing the information. Send comments regarding this burden estimate or suggestions for reducing this burden to: National Marine Fisheries Service, Permit Office, 55 Great Republic Drive, Gloucester, MA 01930-2276.

Northeast Region Dealer Electronic Reporting

Federally Permitted Dealer Reporting Requirements

- ◆ **Does this affect me?** All seafood dealers must report electronically if they are issued a federal permit under 50 CFR part 648 to purchase fish in the following fisheries:

Atlantic Mackerel	Northeast Multispecies	Black Sea Bass	Ocean Quahog
Atlantic Sea Scallop	Atlantic Herring	Scup	<i>Illex</i> Squid
Atlantic Deep Sea Red Crab	Spiny Dogfish	Monkfish	<i>Loligo</i> Squid
Atlantic Surfclam	Northeast Skate	Tilefish	Butterfish
Atlantic Bluefish	Summer Flounder	Atlantic Hagfish	

- ◆ **How do I report electronically?** All reports must be submitted via an approved electronic reporting system.
- ◆ **What do I report?** If you hold one of the permits listed above, the following information is required to be reported for each purchase or receipt of fish or shellfish regardless of where or how it was harvested, or who harvested it. This applies to all species, with the exception of bay scallop, blood arc clam, soft clam, razor clam, blood worm, sand worm, blue crab, green crab, hermit crab, Japanese shore crab, spider crab, blue mussel, oyster, and quahogs.

- Dealer name and permit number
- Vessel name and permit number or state registration or USCG documentation number
- Date of purchase or receipt
- Units of measure and amount by species (by market category, if applicable)
- Price per unit by species (by market category, if applicable) or total value by species (by market category, if applicable)
- Port and state landed
- Unique trip identifier supplied to the dealer by the vessel operator.
 - This is required of those vessels permitted under 50 CFR part 648. Vessels are not required to provide the unique identifier if they hold state permits only or if they are Federally permitted vessels fishing under other parts and have reporting requirements under those parts.
- Disposition. For example: food, bait, pet food or reduction
- Cage tag numbers for surf clams and ocean quahogs harvested under a National Marine Fisheries Service ITQ allocation.

Out-of-Region Purchases: dealers purchasing or receiving fish from a vessel landing outside the NE Region (Maine to North Carolina) are required to report only those species managed by the NE Region (listed above) and American lobster, to the NE Region.

Purchases of Atlantic bluefin tuna are not required to be reported under 50 CFR part 648. (See 50 CFR part 635.5(b)(2) instead.) However, purchases of other Highly Migratory Species (HMS), specifically Bigeye, Albacore, Yellowfin and Skipjack tunas, Atlantic shark, and/or Atlantic swordfish, must be reported electronically if permits for Northeast (NE) species requiring electronic reporting are also held. If dealers do not have NE permits, reports for these other HMS should be submitted to the local port agent.

◆ When do I submit reports?

- ☑ All NE federally-permitted seafood dealers must submit electronic purchase reports weekly, by midnight of the first Tuesday following the end of the reporting week. A reporting week is from Sunday through Saturday. This includes negative reports.
- ☑ Price and disposition information may be submitted after the initial data. However, these must be submitted within 16 days of the end of the reporting week.

◆ Editing submitted data?

- ☑ Dealers have access to all landings data they submit electronically.
- ☑ Corrections may be made to reports within 3 business days after submission of data.
- ☑ If corrections are needed after this time you must contact your local NMFS field staff office.

◆ Negative Reports

- ☑ If no fish or shellfish are purchased or received in an entire reporting week, an electronic negative report so stating this must be submitted.
- ☑ Negative reports may be filed electronically up to 3 months in advance if the dealer knows they will not be purchasing or receiving fish or shellfish during that time.
- ☑ If a purchase is made for a day during that time period the negative report for that week is voided.
