## Filling out PDF Forms

This PDF form contains “**roll-over** or **double-click**” help functionality.

This form allows you to enter data directly onto the screen. After completing the form, you are able to print the document so that you can fax/mail the document.

To fill out a form:

1. Select the hand tool. 
2. Position the pointer inside a field, and click to type text.
3. After entering text or selecting a check box, do one of the following:
  - Press tab to accept the form field change and go to the next form field.
  - Press Shift+Tab to accept the form field change and go to the previous form field.
  - Press Enter (Windows) or Return (Mac OS) to accept the form field change and deselect the current form field.
4. Once completed, print the form.

## CTSUS Data Transmittal Form Instructions for PACCT1

- All CRF's, reports etc should be faxed to **301-545-0406**.
- All submitted documents must include the new bar-coded transmittal form. Forms will not be processed properly if the transmittal is not included.
- Transmittal forms are now study specific for certain studies on the CTSU menu. It is **crucial** to select the appropriate form for your study when submitting documents.
- Complete 1 transmittal form for each patient and protocol. Be sure to include your contact information in case of questions.
- Be sure patient ID and protocol number are present on the top of each submitted page. If this is not done, you will be asked to resubmit.
- Please remove all patient identifiers or HIPAA protected information.
- Do not fax more than 50 pages in a single transmission. This may cause the system to malfunction, potentially losing pages.
- Be sure to complete the transmittal form in its entirety. If the transmittal form is not complete and correct for each submitted form(s), the documents may be returned.
- Please check your fax machine to be sure faxes were successfully sent.
