

Access to Telework Programs Data Collection Instrument and Instructions One Year Follow-up Data

At the one-year anniversary of the loan, use this survey form to ask follow-up questions to the Direct Users who have had their loan for one year. The survey will allow you to report on whether Direct Users' primary employment goals at the time of loan closings were achieved one year later as a result of a Telework loan.

Telework Programs may collect this follow-up data in a manner that best meets their needs. The data from the Direct Users may be collected in person, via phone, via mail, or online. Regardless of the method of data collection, programs should collect the data from the Direct User as near as possible to the 12-month anniversary of the loan's closing. To produce valid data, you should try to obtain as high a response rate as possible.
