The School Survey on Crime and Safety (SSOCS) is a nationally representative survey of elementary and secondary school principals, that serves as the primary source of school-level data on crime and safety in public schools. SSOCS is the only recurring federal survey collecting detailed information on the incidence, frequency, seriousness, and nature of violence affecting students and school personnel from the school's perspective. NCES received OMB clearance for SSOCS 2010 and 2012 collections on October 6, 2009. This change request is to add two new items to the SSOCS questionnaire on staff training related to bullying (per request by OSDFS) and to update the respondent burden estimates.
