United States Department of Education Institute of Education Sciences National Center for Education Statistics

DATE: August 26, 2011 TO: Shelly Martinez, OMB FROM: Tracy Hunt-White, NCES THROUGH: Kashka Kubzdela, NCES SUBJECT: NPSAS:12 Full Scale Cognitive Testing 2011 Clearance Revision (OMB# 1850-0803 v.55)

The following material is an amendment to the OMB package submitted on July 14, 2011 and cleared August 3, 2011 (OMB# 1850-0803 v.53) for the conduct of cognitive interviews to pretest the full-scale student interview for the 2011-12 National Postsecondary Student Aid Study (NPSAS:12) under the National Center for Education Statistics (NCES) agreement, OMB #1850-0803. Since the initial submission, changes were made to the student interview as the result of recommendations made by the NPSAS:12 technical review panel and a request from ED's Office of the Under Secretary. This memorandum summarizes those changes. The student interview, revised as indicated in this memorandum, will be used in the cognitive testing planned for August-September 2011. Questions for cognitive testing will be limited to the new and revised items, although participants will be asked to provide comments on other items in the interview should they find them confusing or otherwise problematic.

Appendix 1 provides an overview of the interview items revised for cognitive testing and the nature of the revision, and Appendix 2 provides details about the original wording of the item and the type of revision implemented. Appendix 1 also provides page numbers indicating where, in Appendix 2, the item-level detail may be found. Within Appendix 2, items that are new or are to be revised are highlighted in yellow while items to be deleted are highlighted in green.

Appendix 1. Summary of TRP-Recommended Revisions to the NPSAS:12 Interview
