INTRODUCTION

This attachment contains the details of sets of related data entries known as data groups (DG) that are collected from state education agencies (SEAs). The data groups in this document are organized by topic as listed in the below table.

A reviewer of this attachment may also want to reference Attachments B-2 and B-4. Attachment B-2 explains how to read the table of information on each data group. Attachment B-4 contains the definitions and permitted values of the categories in the category sets.

In each section data groups are listed in alphabetical order by data group name. For readability, the tables that describe data groups are not divided between pages. This results in some pages having significant blank space.

Appendix A, at the end of this document, lists changes to this document after the 30-day public comment period. Appendix B, at the end of this document, lists changes to this document per Attachment H – Technical Amendments.

NON-FISCAL COMMON CORE OF DATA

The data groups in this section comprise most of the Non-Fiscal Common Core of Data (CCD) that are collected through the EDEN Submission System (ESS). CCD is a program that annually collects fiscal and non-fiscal data about all public schools, public school districts and SEAs in the United States. The data are supplied by SEA officials and include information that describes schools and school districts, including name, address, and phone number; descriptive information about students and staff, including demographics; and fiscal data, including revenues and current expenditures. EDFacts collects only non-fiscal data for CCD. The data steward for these data groups is the National Center for Education Statistics (NCES).

The CCD also includes the data groups in the table below which are listed under other topics in this attachment.

The data group in this section is used to fulfill the requirements of the *General Education Provisions Act (GEPA)* Section 424.

Under *GEPA*, Section 424, ED is required to prepare a biennial report for Congress on the distribution of funds by SEAs to LEAs and other agencies and institutions under any federal education program administered by the state. The data steward for this data group is the Office of the Chief Financial Officer (OCFO).

ACCOUNTABILITY AND REPORTING PROVISIONS OF *ESEA*

The data groups in this section support the oversight and reporting of the accountability provisions of *ESEA* as amended, however, data groups associated with public school choice and supplemental educational services are included in a separate section.

These data groups comprise the education data most frequently shared with the public. It includes data for the accountability and reporting components of *ESEA*: academic achievement and participation in state assessments, graduation rates, additional academic indicators, adequate yearly progress (AYP), school improvement, and others. The data steward for the data groups in this section is the Office of Elementary and Secondary Education (OESE).

The table below lists the data groups in this section:

Collection of data groups for academic achievement and assessment participation for SY 2010-11

The SY 2010-13 EDFacts Data Set, approved by the Office of Management and Budget (OMB) in August 2010, included the consolidation of most of the *ESEA* and *IDEA* assessment data groups. The purpose of the consolidation was to improve the data quality and timeliness of the assessment data and data use by ED.

In the interim, ED has been going through a mandatory server upgrade that is now scheduled to be completed in May 2011. Unfortunately, this process has absorbed significant ED resources and the implementation of SY 2010-11 is delayed. In addition, some SEAs have expressed concerns that they would be unable to consolidate the assessment files to report their SY 2010-11 data. Some SEAs also mentioned that moving up the reporting date for the *IDEA* assessment files by about a month and a half, to mid-December 2011, would be taxing.

After careful analysis of these situations, ED is requesting that OMB grant a temporary delay in consolidating the assessment files. If the request is granted, ED will re-institute the previously used assessment file specifications (i.e., for *ESEA* and *IDEA*) for SY 2009-10.

SEAs will report all of their assessment (and participation in assessment) data, as they did for SY 2009-10, with two differences. First, all of the SY 2010-11 assessment data (i.e., for *ESEA* and *IDEA*) will be submitted to EDFacts by December 15, 2011. Secondly, ED will conduct congruency analyses of the assessment data to ensure that the data submitted in the *ESEA* files align with the data submitted in the *IDEA* files. States will receive these analyses in late January 2011 or early February 2012 (to coincide with the distribution of the SY 2010-11 CSPR Part I verification spreadsheets).

TECHNOLOGY

The data groups in this section support *ESEA*, Title II, Part D (Enhancing Education through Technology) education technology program, a formula grant program aimed at having all students technologically literate by grade 8 and improving student achievement through technology. The data steward for these data groups is the Office of School Support and Technology Programs within OESE (OESE/SSTP). However, the core data collection burden of these data groups should not change.

FUNDING FLEXIBILITY (REAP)

TITLE I PROGRAM (NON-ACCOUNTABILITY PROVISIONS)

The data groups in this section support oversight and reporting of the Title I Program excluding the accountability and reporting, public school choice, and supplemental educational services provisions which are in separate sections in this attachment. The data steward for these groups is the division of OESE that administers the Title I Program (OESE / Title I).

As part of the CSPR, ED collects data on participants and staff in Title I, Part A of *ESEA*. Title I, Part A programs can be classified into four types: Public Schoolwide Programs (Public SWP), Public Targeted Assistance Programs (Public TAS), Neglected or Delinquent Programs (N or D) funded by Title I Part A⁴ and Services to Children in Private Schools (Private). The matrix below illustrates the relationship between the EDFacts data groups and files and the data collected on participants and staff in Title I, Part A programs.

N/X037	548	Title I SWP/TAS Participation Table	X	X

In addition, the status of a school as Title I (DG22) is reported in N/X129 CCD file. The status of an LEA (school district) as a district that received Title I funds is confirmed by the states for purposes of the CSPR. The data group for the status of a district is included in the directory data groups and is discussed in Attachment B-1.

PUBLIC SCHOOL CHOICE AND SUPPLEMENTAL EDUCATIONAL SERVICES

The data groups in this section support oversight and reporting on the public school choice and supplemental educational services (SES) provisions of the *ESEA* as amended. These provisions provide educational options—transferring to another public school in the district or receiving additional academic instruction such as tutoring — to eligible students who attend a school that has not made AYP for multiple years. The data stewards for these data groups are the Office of Innovation and Improvement (OII) and the Office of Elementary and Secondary Education (OESE).

SAFE, DRUG-FREE AND GUN-FREE SCHOOLS

The data groups in this section support oversight and reporting of the *Safe and Drug Free Schools and Communities Act* and the *Gun-Free Schools Act*.

Two data groups will be collected through a web-based survey using *EMAPS* instead of the EDEN Submission System (ESS):

- Unsafe school choice – offered (DG646)
- Unsafe school choice – transferred (DG645)

In addition to these data groups, ED will conduct a web-based survey using *EMAPS* on the *Gun-Free Schools Act*. That survey will include questions similar to the following:

- List the name and address of each LEA that has not provided an assurance that it is compliant with the state law that requires a student who brings a firearm to school, or possesses a firearm at school, be expelled for a year.
- List the name and address of each LEA that has not provided an assurance that it is in compliance with the requirement in Section 4141(h) that an LEA receiving *ESEA* funds have in place a policy requiring referral to the criminal justice or juvenile delinquency system of any student who brings a firearm to a school, or possesses a firearm at school.
- Indicate whether the state law related to the *Gun-Free Schools Act* has changed in the past 12 months. If the law changed, provide a brief description of the change or a copy of the new/revised statute.
- Explain how the state law addresses the need for providing educational services in an alternative setting to students expelled from their regular school setting. For example, does the state law:
 - Encourage LEAs to provide educational services to expelled students in an alternative setting
 - Require LEAs to provide educational services to expelled students in an alternative setting
 - Not address the need for educational services in an alternative setting.
- Indicate whether any state funds are used to support the implementation of educational services in alternative settings as it relates to students who have been expelled under the *Gun-Free Schools Act*.

The data steward for the data groups in this section is the Office of Safe and Drug Free Schools (OSDFS).

INDIVIDUALS WITH DISABILITIES EDUCATION ACT

The data groups in this section support oversight and reporting of the *Individuals with Disabilities Education Act (IDEA)*. Data in this section are used for the Office of Special Education Program’s (OSEP) Annual Report to Congress and for *IDEA* state accountability purposes. Data are published for public use on www.idea.org.

The following table crosswalks these data groups to the legacy Section 618 tables.

CAREER AND TECHNICAL EDUCATION

The data groups in this section support oversight and reporting of career and technical education. The *Carl D. Perkins Career and Technical Education Act* of 2006 has requirements for reporting performance indicators in the Consolidated Annual Report (CAR). Below are the performance indicators and crosswalks for how the data are calculated for all students and for the subgroups of students using students who are economically disadvantaged as an example. The definitions of CTE concentrator and CTE participant are in Attachment B-1 under standard definitions. States will provide information on category sets that are missing or not collected in a metadata collection through EMAPS.

Measure - Percent of CTE concentrators met proficiency or above on state-established academic standards in reading (language arts)

	All students	Subgroups (e.g., students who are economically disadvantaged)
