Semi-Annual Davis Bacon Reporting

DOE financial assistance Recipients must comply with the Davis-Bacon and Related Acts as a condition of spending DOE funds. Among other Davis-Bacon requirements, Recipients must report semi-annually to DOE regarding their oversight of Davis-Bacon compliance and enforcement. These reports are due within 20 calendar days following the end of the semi-annual reporting period.

The semi-annual report is submitted to DOE via this webpage. After a Recipient enters the information, simply click on the "submit" button below to submit the report to DOE.

Instructions for Semi-Annual Enforcement Reporting Purposes

Calendar year semi-annual reports on compliance with and enforcement of the labor standards provisions of the Davis-Bacon Act and its related acts covering the periods of October 1st through March 31st, and April 1st through September 30th, respectively.

Please submit your semi-annual report to DOE three weeks after the end of semi-annual reporting period by April 21st and October 21st for applicable performance period.

1. Enter beginning and ending dates of the period covered by this semi-annual report (e.g., October 1, 20__ to March 31, 20__; or April 1, 20__ to September 30, 20__).
2. Enter the number of contracts and grants which are subject to the Davis-Bacon Act.
3. Enter the total dollar amount of contracts and grants awarded which are subject to the Davis-Bacon Act.
4. Enter the total number of contractors and subcontractors against whom complaints were received by your office. Recipients of grants should track complaints received (and track complaints analyzed and answered). Count only complaints filed with your office against contractors performing work on all covered contracts.
5. Enter the total number of investigations completed by your office during this reporting period. An "investigation" is "any corrective action taken to enforce the provisions of Davis-Bacon Act/ Contract Work Hours and Safety Standards Act for covered employees." A grant Recipient should track receipt of payrolls, review payrolls, interviews performed, and site visits - all of these activities are not part of an investigation until someone is not properly paid or it appears someone has not been properly paid. Your actions taken to resolve that problem become an investigation - even if it is resolved by determining that your initial thought of violation is not true (the worker was classified properly, etc.). Note: For every complaint received, there must be an investigation to resolve it.
6. Enter the number of contractors and subcontractors found in violation as a result of the investigations reported in item 4 above. Do not count a contractor or subcontractor more than once in a single investigation even where more than one contract is included in the investigation.
7. Enter the total amount of wage restitution which you found due to employees of the contractors/subcontractors reported in item 5 above, showing the amount due because of violations of the Davis-Bacon and Related Acts or the Contract Work Hours and Safety Standards Act.
8. Enter the total amount of back wages paid during this reporting period.
9. Enter in the number of employees to whom the wage restitution reported in item 7 above is due. This figure is the unduplicated count: that is, an employee due wage restitution as a result of an investigation shall be counted only once.
10. Enter amount of liquidated damages assessed under Contract Work Hours and Safety Standards Act.
