

Geothermal Program Web Audience Survey

Purpose:

The purpose of an online survey for the Geothermal Technologies Program (GTP) website is to understand:

- What types of audiences are visiting the GTP site: their role, characteristics, distribution
- What content or information visitors seek/the purpose for the website visit
- How well the current website meets the needs of its target audiences

Intro text:

Thank you for visiting the Department of Energy's Geothermal Technologies Program website. In an effort to improve the website and find out more about our site's visitors, we are asking for your feedback. This survey should take less than 3 minutes to complete.

Your responses will only be used by the Geothermal Web team to help improve the site. Your answers will not be shared with other organizations or sold, and you will not receive unsolicited emails because of your participation in this survey.

Thank you for your participation.
