## Summer of Innovation School-Year Teacher Implementation Form

### Greetings!

The National Aeronautics and Space Administration (NASA) is conducting a national evaluation of its Summer of Innovation (Sol) Program. Abt Associates Inc. and its partner the Education Development Center have been hired to conduct this study. You have been selected to complete this teacher implementation form based on your role in the Sol Program. These forms are intended to help NASA learn about when teachers are using the Sol content and resources and how many students are participating during the school-year. We will be sending you this form every month between September and March. We estimate that it will take approximately 10 minutes on average to complete each month.

### Privacy and Participation

Your participation in the study is voluntary and nonparticipation will have no impact on you or your Sol awardee organization. Your responses to this survey will be protected under the Privacy Act. There is minimal risk of breach of confidentiality, and we have put in place procedures to minimize this risk. You will never be identified by name, and information from the evaluation will only be reported in the aggregate.
