Case Study Social Network Survey

Survey Instructions

Thank you for filling out the DFC Social Network Survey. By taking the time to fill out this survey, you will provide valuable information for informing the work of DFC coalitions across the nation. As you know, coalitions can be powerful organizations for improving a community’s response to youth drug use, but sometimes they can also struggle to accomplish their long-term goals. This survey is designed to help us better understand how DFC coalition sectors work together and how they can be more effective in collaborating with one another.

Please respond to this survey regarding your perceptions and experiences with **your coalition as a whole** rather than only within one subcommittee/workgroup. These questions ask about the nature of the relationships your organization/agency has with the other sectors of your coalition. If you are answering these questions as a representative of the parent or youth sectors, please think of the broader sector of parents/youth as “your organization/agency.”

- Below is a list of the different stakeholder sectors represented on DFC coalitions. Please check **which stakeholder sector you represent**. While you may work in an agency (e.g., law enforcement), you may be serving on this coalition in the role of parent and therefore you would check parent sector here. If you feel you participate in additional roles beyond the primary sector, please indicate that under “Other Sector(s) Represented.” If your agency or group does not fit within the broad sector categories, please check other and describe your agency or group.
