INTRODUCTION:

[Introduce yourself, and ask for the operator. Rephrase in your own words.]

We are collecting information on practices and costs to produce certified organic durum wheat and need your help to make the information as accurate as possible. Authority for collection of information on the Certified Organic Durum Wheat Production Practices and Costs Report is Title 7, Section 2204 of the U.S. Code. This information will be used for economic analysis and to compile and publish estimates for your region and the United States. Response to this survey is confidential and voluntary.

We encourage you to refer to your farm records during the interview.

ORGANIC DURUM WHEAT FIELD SELECTION

1.	How many acres of certified organic wheat (winter, durum and other spring) did this operation plant for the 2009 crop year? [For certified organic winter wheat, record acres planted in fall/winter 2008 for 2009 crop year.].	TOTAL PLANTED ACRES
	[If no acres planted, review Screening Survey Information Form, make notes, then go to item 4 on back page.]

	a. certified organic winter wheat?	0051
	b. certified organic durum wheat?	0052
	c. other certified organic spring wheat?	0053
		·

2. I will follow a simple procedure to make a random selection from the certified organic durum wheat fields planted for the 2009 crop.

What is the TOTAL number of certified organic durum wheat fields that were planted on this operation? [If only one field, enter "1" and go to item 5.]....

3. Please list these fields according to identifying name/number or describe each field. Then I will tell you which field has been selected.

[If there are more than 18 fields, make sure item 2 is **TOTAL** fields planted and list only the 18 fields closest to the operator's permanent residence. If respondent is unable to identify or describe the fields, use the Field Selection Grid Supplement.]
