INTRODUCTION:
[Introduce yourself, and ask for the operator. Rephrase in your own words.]

We are collecting information on practices and costs to produce peanuts and need your help to make the information as accurate as possible. Authority for collection of information on the Peanut Production Practices and Costs Report is Title 7, Section 2204 of the U.S. Code. This information will be used for economic analysis and to compile and publish estimates for your region and the United States. Response to this survey is confidential and voluntary.

We encourage you to refer to your farm records during the interview.

1. How many acres of peanuts did this operation plant for the 2004 crop year?

▶ [If no acres planted, review Screening Survey Information Form. Make notes, then go to item 4 on back page.]

TOTAL PLANTED ACRES

0050

2. I will follow a simple procedure to make a random selection from the peanut fields planted for the 2004 crop.

TOTAL NUMBER OF FIELDS PLANTED

0020

What is the TOTAL number of peanut fields that were planted on this operation?.....

[If only 1 field, enter 1 and go to item 5.]

3. Please list these fields according to identifying name/number or describe each field. Then I will tell you which field has been selected.

- ▶ [If there are more than 18 fields make sure item 2 is TOTAL fields planted, and list only the 18 fields closest to the operator's permanent residence.]
- ▶ [If respondent is unable to identify or describe the fields, use the Field Selection Grid Supplement.]
- ▶ [If peanuts are planted for more than one purpose in a field, treat each purpose as a separate field. (i.e., if acres planted for peanuts and for a commercial seed contract are in the same field, treat as two separate fields).]
