Full-time equivalents (FTEs)

5-10 What was the number of domestic full-time equivalent (FTE) scientists and engineers engaged in R&D activities for the pay period that included March 12, 2010?

Full-time equivalents account for R&D scientists and engineers who do not work full-time and R&D scientists and engineers who do not work on R&D activities full-time. For example, a scientist or engineer who works half-time would be counted as one employee on a headcount basis but as one-half (1/2) of an FTE employee. Similarly, a full-time employee who devotes 25% of her time to R&D would be counted as one quarter (1/4) of an R&D FTE employee. The number of FTEs and the headcount may differ for your company.
