Pregnancy Health Care Log

This Pregnancy Health Care Log will help you keep track of all your visits to doctors or other health care providers (such as your obstetrician (OB-GYN), family doctor, nurse, midwife, or other type of provider) during your pregnancy. We will ask you about all of your visits whenever we interview you by telephone or in person.

The log has two parts:

1. **Health Care Provider Log** is where you will provide information about where you visit your doctor or other health care provider.

2. **Health Care Visits Log** is for information about all your visits to your doctor, other health care provider, or emergency room. This *does* include overnight hospital stays as well as outpatient visits. **Use one page for each visit or hospital stay.**

BRING this Pregnancy Health Care Log with you to all health care and National Children's Study visits and have it available for all NCS telephone interviews.

If you forget to bring it with you to a health care visit, please fill it in as soon as possible.
