Subject: RE: Comments Triennial Evaluation of the Projects for Assistance in
Transition From
Homelessness

Patrick,
Below is the Programs ~~response to the comment.~~

~~10 sites will be chosen randomly from the 48 contiguous states (HI and AK
and 6 territories will
be eliminated due to high travel costs), to get an even distribution covering
the following
variables:~~

- ~~* All 10 standard geographical regions as determined by the OMB
Circular A-105;~~
- ~~* Mean poverty level, based on the average of the percentage of people
whose income
in the past 12 months is below the poverty level from the zip codes of the
2009 PATH
providers and American Community Survey, varying from the lowest to the
highest;~~
- ~~* Mean urbanicity level, based on the average urbanicity level of the
2009 PATH
providers based on the USDA 1 to 9 urbanicity scale; and~~
- ~~* the 2009 PATH funding for selected states ranging from the minimum
of \$300,000 to
over 1 million.~~
