

OMB #1505-0238

Justification for Change

The screener tool will be used to screen participants to take part in the research study. The screener will be used established focus group participants to represent a variety of ethnic, gender, income and marital status. The telephone screening is estimated to take 10 minutes per participant, for increase of 20 hours due to program change. This screener tool was not previous included our emergency request for the Core Competency Working Group information collection and we wish to include it at this time.
