This OMB83 C is requesting an increase in burden to account for the full three year burden for NAEP, instead of an annual amount. This is done to accommodate the ROCIS record for this generic ICR since the U.S. Department of Education (ED) only accounted for an annual total. Last year, ED reported 1,129,065 responses and 358,801 annual burden hours. This year, NCES needs 30,808 additional hours and next year 347,567 hours are needed. Therefore, for the NAEP 2011-13 the 3-year total number of responses will be 2,240,673 and the total respondent burden will be 737,176 hours (see the attached tables with detailed burden estimates).
