Entergy Arkansas, Inc.
Docket No. ES11-25-000

Report Pursuant to Section 34.10 of Regulations under Federal Power Act for Long-Term Finance

The following are essential facts relating to a transaction entered into by Entergy Arkansas, Inc. pursuant to the Federal Energy Regulatory Commission Order issued May 23, 2011, in Docket No. ES11-25-000 (the “Order”):

(1) Date of Transaction: June 29, 2011.

(2) Description of Transaction: The Company has previously entered into a Nuclear Fuel Leasing Arrangement with River Fuel Trust #1 (the “Trust”) pursuant to the Order. On June 29, 2011, the Company caused the Trust to enter into separate but identical Note Agreements, except for the name of the purchaser, dated as of June 29, 2011 with certain purchasers, pursuant to which the Trust issued and sold \$55,000,000 aggregate principal amount of its Intermediate Term Secured Notes, 3.23% Series J, due July 15, 2016 (the “Series J Notes”). The Series J Notes were issued and sold at a price of 100% of the principal amount thereof, bear interest at a rate of 3.23% per annum, and mature on July 15, 2016. The proceeds of the Series J Notes were used (1) to pay the purchase price of additional amounts of nuclear fuel (indirectly the proceeds were used to purchase fuel through other borrowings), (2) to repay certain outstanding indebtedness of the Trust under the Credit Agreement, dated as of July 22, 2010, among the Trust, The Bank of Nova Scotia, as Administrative Agent, and the Lenders identified therein, and (3) for other permitted purposes. Barclays Capital Inc. acted as Private Placement Agent to the Company and the Trust in the private placement of the Series J Notes and were paid a fee of 0.50% of the principal amount of the Series J Notes for their services.
