

CD-12-03 (HDV)

SUBJECT: Posting of Certification Templates for Model Year 2013 and Later Heavy-Duty Highway Engine and Vehicle Families

Dear Manufacturer:

The purpose of this letter is to announce the posting of the certification templates you must use to submit Pre-Model Year Reports or Certification Applications for all your engine and vehicle families regulated under 40 CFR Parts 1036 and 1037; 49 CFR Parts 523, 534 and 535; and other parts referenced therein. All certification and compliance requirements are specified in the Environmental Protection Agency and National Highway Traffic Safety Administration heavy-duty greenhouse gas final rule entitled, "Greenhouse Gas Emissions Standards and Fuel Efficiency Standards for Medium- and Heavy-Duty Engines and Vehicles" (see 76 FR 57106).

The Heavy-duty Pick-Up Trucks and Vans Pre-Model Year Report template and the Heavy-duty Combination Tractors and Vocational Vehicles Certification Application template can be found on our website at <http://www.epa.gov/otaq/certdat2.htm>.

To access the Heavy-duty Engines Greenhouse Gas template, use the same certification template you currently use for heavy-duty engine criteria emissions certification.

If you are a new manufacturer, contact your certification representative for information on which template you should be filling out. For a list of certification representatives, please refer to CD-12-02 (http://iaspub.epa.gov/otaqpub/display_file.jsp?docid=26677&flag=1). If you do not know who your representative is, contact Gregory Orehowsky by email at orehowsky.gregory@epa.gov or by phone at 202-343-9292.

Additional information on the Heavy-duty Greenhouse Gas program can be found on our website at: <http://www.epa.gov/otaq/climate/regulations.htm#1-2>.

For all manufacturers, if at any time you should have questions regarding accessing or processing your documents, please contact your certification representative directly.

Sincerely,

Byron J. Bunker, Acting Director
Compliance Division
