OMB Control No. 2060-0651

Approval expires 12/31/2013

The public reporting and recordkeeping burden for this collection of information is estimated to average 60 minutes per response (the burden was already included in ICR 2376.02). This is an optional application form. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Ave. NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do NOT send the completed form to this address.

**Form D Part I – Request to use BAMM for Sources Referenced in 98.234(f)(5)(iv)**

**General Information:** If you are an owner or operator subject to Subpart W of 40 CFR Part 98 and have sources eligible for BAMM under 98.234(f)(5)(iv), you may use best available monitoring methods upon approval. You may use this optional form to request to use BAMM to estimate emissions that occur between January 1, 2011 and December 31, 2011 for sources referenced in 98.234(f)(5)(iv). You must submit your request by **April 30, 2011**.

To obtain approval, the request must demonstrate to the EPA Administrator’s satisfaction that the owner or operator faces unique safety, technical or legal issues rendering them unable to meet the requirements of subpart W for the time period from January 1, 2011 to December 31, 2011.

For requests to use BAMM to estimate emissions that occur beyond December 31, 2011 for sources listed in 98.234(f)(8) due to unique and extreme circumstances which include safety, technical infeasibility, or inconsistency with local, State, or Federal regulations, you must submit your request by **September 30, 2011**. You may use Part II of this form if you find it necessary to submit a request for an extension of the use of BAMM past December 31, 2011, under subpart W of 40 CFR part 98 (40 CFR part 98.234(f)(8)).

The following table summarizes the important dates for subpart W BAMM requests for sources identified in 98.234(f)(5)(iv).

**Important Dates for Subpart W BAMM Requests For Sources Identified in 98.234(f)(5)(iv)**

<b>To use BAMM to estimate emissions that occur between January 1, 2011 and December 31, 2011 for the following parameters:</b>	<b>Demonstrate that it is not reasonably feasible to comply with the monitoring requirements of subpart W:</b>	<b>Submit BAMM request no later than:</b>
This covers sources not listed in 98.234(f)(2), (f)(3), and (f)(4).	Between the period of January 1, 2011 and December 31, 2011.	April 30, 2011
<b>To use BAMM to estimate emissions that occur beyond December 31, 2011 for the following parameters:</b>	<b>Demonstrate that, due to extreme and unique circumstances, it is not reasonably feasible to comply with the monitoring requirements of subpart W after:</b>	<b>Submit BAMM request no later than:</b>
For sources listed in 98.234(f)(8).	December 31, 2011	September 30, 2011

*Upon receipt, the request will be recorded in the EPA tracking system, and the requester will be notified that EPA has received and is evaluating the request. EPA will evaluate your request to confirm that it is consistent with §98.234(f). The agency will then notify you to confirm approval or denial of the application. As a general matter, EPA will base its decision on the information provided in the extension request and does not intend to negotiate on specific issues. As time allows, EPA may follow up on extension requests with additional questions. The requester must discontinue using best available monitoring methods and begin following all applicable monitoring and QA/QC requirements of subpart W and part 98 no later than July 1, 2011 unless EPA approves an extension request before that date.*
