

**Justification for Change: Program Information Sheet
3137-0071 IMLS Grant Application and Post-Award Reporting Forms**

IMLS is requesting a change to a previously approved clearance in order to provide applicants the opportunity to more accurately describe the type of collection that will be addressed in projects for which support is sought through the Conservation Project Support Grants program. The categories of Art, History, Natural History, and Anthropology will be used by IMLS staff to identify and assign reviewers, manage competitions, and report simple statistics relating to the program. This edited Program Information Sheet is requesting the same expiration date of 8/31/2013.

Previous request abstract:

IMLS requests clearance for the forms it uses for all of the grant program applications, post-award reporting, and peer reviewer applications. These forms are directly related to the generic clearance for IMLS grant application and award processes (3137-0029) for which a three-year extension was recently submitted.
