DESCRIPTION AND OBJECTIVES OF SURVEY

The NRC would like to obtain feedback from its stakeholders through a media streaming survey to help the Commission determine whether having Internet access to Commission meetings is of continued value to stakeholders and whether stakeholders are interested in live and/or archived meetings. Respondents will answer two questions -- one about their affiliation and the other about their interest in viewing live or archived Commission meetings on the web.

The annual burden for this survey is estimated to be approximately 2 minutes per response (.03 hours) for 100 respondents. This represents a total of 3 hours of annual burden.
