ADAMS is accessible at <http://www.nrc.gov/reading-rm/adams.html>, which provides access through the NRC's Electronic Reading Room (ERR) link. These documents may also be viewed on the Internet at <http://www.nrc.gov/reactors/>

Melvin Snow Memorial Branch Library in Spotsylvania, Virginia.

Members of the public may submit comments on the revisions to the ER by one of the following methods:

Federal rulemaking Web site: Go to <http://www.regulations.gov> and search for documents filed under Docket ID NRC-2008-0149. Comments may be submitted electronically through this Web site until the close of the comment period March 9, 2011. Please include Docket ID NRC-2008-0149 in the subject line of your comments.

Mail comments to: Chief, Rulemaking, Announcements, and Directives Branch, Division of Administrative Services, Office of Administration, *Mail Stop*: TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001 or by fax to 301-492-3446. Comments should cite the publication date and page number of this **Federal Register** notice. To ensure that comments are considered in the scoping process, written comments must be post-marked or delivered by the end of the scoping comment period, which is March 9, 2011.

Electronic comments via the Internet to the NRC at

NorthAnnaCOLEIS@nrc.gov. Electronic submissions must be sent no later than March 9, 2011, to ensure that they will be considered in the scoping process.

Comments submitted will be posted on the NRC Web site and on the Federal rulemaking Web site, *Regulations.gov*. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments and to remove any identifying or contact information in comments they do not want publicly disclosed.

The NRC staff may consider comments submitted after the end of the comment period, as time and resources permit. Participation in the scoping process does not entitle participants to become parties to the proceeding to which the SEIS relates.

At the conclusion of the scoping process, the NRC staff will prepare a concise summary of the determination and conclusions reached on the scope of the environmental review for the revisions to the Dominion application, including the significant issues identified, and will send a copy of the summary to each participant in the scoping process for whom the staff has an address. The summary will also be available for inspection through the NRC ERR link. The staff will then prepare and issue for comment the draft SEIS, which will be the subject of separate **Federal Register** notices and a public meeting. Copies of the draft SEIS will be available for public inspection at the above-mentioned address, and one copy per request will be provided free of charge. After receipt and consideration of the comments on the draft SEIS, the NRC staff will prepare a final SEIS, which will also be available for public inspection.

Information about the proposed SEIS and the scoping process may be obtained from Ms. Tamsen Dozier, Environmental Project Manager at 1-800-368-5642, extension 2272 or via e-mail to Tamsen.Dozier@nrc.gov.
