

JUSTIFICATION FOR NONMATERIAL/NONSUBSTANTIVE CHANGE
United States Patent and Trademark Office
Patent Prosecution Highway (PPH) Program
OMB CONTROL NUMBER 0651-0058
(January 2011)

Background

The United States Patent and Trademark Office (USPTO) is submitting this request to update information collection 0651-0058 Patent Prosecution Highway (PPH) Program. The USPTO is adding two forms to this collection for new participants in the PPH pilot program: PPH Israel and PPH Mexico. The USPTO plans to launch the PPH pilot programs with Israel and Mexico on March 1, 2011. The USPTO is also updating the form for PPH Canada to reflect the move from pilot program to full implementation on January 29, 2011.

The PPH program allows applicants whose claims are determined to be patentable in the office of first filing to have the corresponding application that is filed in the office of second filing be advanced out of turn for examination. At the same time, the PPH program allows the office of second filing to exploit the search and examination results of the office of first filing, which increases examination efficiency and improves patent quality. The PCT-PPH pilot program is an expansion to the PPH program based on the framework of the Patent Cooperation Treaty (PCT). Information collected for the PCT is approved under OMB control number 0651-0021.

PPH agreements streamline the patent system by allowing patent examiners to avail themselves of the work product from other participating patent offices. Originally, the PPH program was limited to the utilization of search and examination results of national applications between cross filings under the Paris Convention. The newer PCT-PPH agreements have greatly expanded the potential of the PPH program by permitting participating patent offices to draw upon the positive results of the PCT work product from another participating office. The PCT-PPH pilot program uses international search reports, written opinions, and international preliminary examination reports developed within the framework of the PCT, thereby making the PPH program available to a larger number of applicants.

The forms in this collection allow participants to file a request in a corresponding U.S. application and petition to make the U.S. application special under the PPH or PCT-PPH program. The PPH forms collect similar data; however, there is a unique form for each participant. This collection currently includes forms for the following PPH programs:

- Japan Patent Office (JPO), Form PTO/SB/20JP
- United Kingdom Intellectual Property Office (UKIPO), Form PTO/SB/20UK
- Canadian Intellectual Property Office (CIPO), Form PTO/SB/20CA

**JUSTIFICATION FOR NONMATERIAL/NONSUBSTANTIVE CHANGE TO 0651-0058
(continued)**

- Danish Patent and Trademark Office (DKPTO), Form PTO/SB/20DK
- European Patent Office (EPO), Form PTO/SB/20EP
- Korean Intellectual Property Office (KIPO), Form PTO/SB/20KR
- Intellectual Property Office of Australia (IPAU), Form PTO/SB/20AU
- Intellectual Property Office of Singapore (IPOS), Form PTO/SB/20SG
- German Patent and Trade Mark Office (DPMA), Form PTO/SB/20DE
- National Board of Patents and Registration of Finland (NBPR), Form PTO/SB/20FI
- Russian Patent Office (ROSPATENT), Form PTO/SB/20RU
- Hungarian Patent Office (HPO), Form PTO/SB/20HU
- Spanish Patent and Trademark Office (SPTO), Form PTO/SB/20ES
- Austrian Patent Office (APO), Form PTO/SB/20AT

Summary of Changes

The USPTO is proposing to add two forms to this collection for new participants in the PPH pilot program and is updating one existing form for a PPH pilot program that has become permanent:

- Request for Participation in the PPH Pilot Program Between the Israeli Patent Office and the USPTO, Form PTO/SB/20IL
- Request for Participation in the PPH Pilot Program Between the Mexican Institute of Industrial Property (IMPI) and the USPTO, Form PTO/SB/20MX
- Request for Participation in the PPH Program Between the Canadian Intellectual Property Office (CIPO) and the USPTO, Form PTO/SB/20CA

Changes in Burden

The addition of the PPH Israel and PPH Mexico pilot forms will result in the following burden changes for this information collection:

Burden Type	Currently approved	Proposed change	New estimates
Responses	2,900	200	3,100
Hours	5,800	400	6,200
Annual (non-hour) costs	\$0	\$0	\$0

The USPTO estimates that it will receive 100 responses per year for each of the pilot programs for PPH Israel and PPH Mexico, and that it will take the public approximately 2 hours to prepare and submit the information for each request, for a total of 200 responses and 400 burden hours per year. There are no burden changes associated with the PPH program with Canada moving from pilot to permanent. **Therefore, this collection takes an increase of 200 responses and 400 burden hours as a program change.**

**JUSTIFICATION FOR NONMATERIAL/NONSUBSTANTIVE CHANGE TO 0651-0058
(continued)**

This collection does not include any annual (non-hour) costs, and there are no annual (non-hour) costs associated with the proposed changes to this collection.

The USPTO estimates that the proposed changes for this collection will result in the following total burden changes:

- Increase of 200 responses as a program change
- Increase of 400 burden hours as a program change
- No change in annual (non-hour) costs

Therefore, this collection would have the following revised total burden:

- 3,100 responses
- 6,200 hours
- \$0 in annual (non-hour) costs
