# **National Minority SA/HIV Prevention Initiative**

# **Adult Questionnaire**

Funding for data collection supported by the Center for Substance Abuse Prevention (CSAP) Substance Abuse and Mental Health Services Administration (SAMHSA) U.S. Department of Health and Human Services (HHS)

These questions are part of a data collection effort about how to prevent substance abuse and HIV infection. The questions are being asked of hundreds of other individuals throughout the United States. The data findings will be used to help prevention initiatives learn more about how to keep people from using drugs and getting infected with HIV.

Completing this questionnaire is voluntary. If you do not want to answer any of the questions, you do not have to. However, your answers are very important to us. Please answer the questions honestly—based on what you really do, think, and feel. Your answers will not be told to anyone in your family or community. **Do not write your name anywhere on this questionnaire.** 

We would like you to work fairly quickly so that you can finish. Please work quietly by yourself. If you have any questions or don't understand something, let the data collector know.

We think you will find the questionnaire to be interesting and that you will like filling it out. Thank you very much for being an important part of this data collection effort!

Completing this questionnaire will take no more than an average of 50 minutes per person. These questions support performance reporting for the Government Performance Results Act, Performance Assessment Rating Tool, CSAP's National Outcome Measures, and the CSAP Minority AIDS Initiative. Send comments or questions regarding this burden estimate or any other aspect of this collection of information to SAMHSA/CSAP, 1 Choke Cherry Road, Room 5-1115, Rockville, MD 20857.

#### INSTRUCTIONS

- 1. Answer each question by marking <u>one</u> of the answer circles. Some questions allow you to mark more than one answer. If you don't find an answer that fits exactly, choose the one that comes closest.
- 2. Mark your answers carefully so we can tell which answer circle you chose. Do not mark between the circles.
- 3. It is very important that you answer each question truthfully. Your responses will not be helpful unless you tell the truth.

#### MARKING YOUR ANSWERS

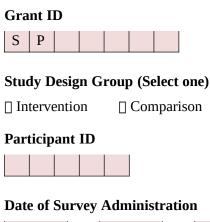

- Use a No. 2 black lead pencil.
- Do not use an ink or ballpoint pen.
- Make heavy dark marks that fill the circle completely.
- Erase cleanly any answer you wish to change.
- Make no stray marks on this questionnaire.

# Section Two: Attitudes & Knowledge

Next, we'd like to ask you how you feel about substance use and sexual behavior, as well as what you know about HIV/AIDS. Again, your answers are private and will not be used to identify you.

The next few questions ask about HOW MUCH you think people RISK HARMING themselves physically or in other ways by using alcohol, tobacco, and drugs.

17. How much do people risk harming themselves physically or in other ways when they smoke one or more packs of <u>cigarettes</u> per day?

#### risk ht risk

- Moderate risk
- Great risk
- Don't know or can't say
- 18. How much do people risk harming themselves physically or in other ways when they smoke <u>marijuana</u> once or twice a week?

risk ht risk

- Moderate risk
- Great risk
- Don't know or can't say

The next questions are about your beliefs and attitudes toward **SEX**.

Some of the questions ask about having sex. By sex or sexual activity, we mean a situation where two partners get sexually excited or aroused (turned on) by touching each other's genitals (penis or vagina) or anus (butt) with their own genitals, hands, or mouth.

When a male inserts his penis into his female partner's vagina, the partners are considered to be having *vaginal sex*.

When one partner's mouth is in contact with the other partner's genitals (penis or vagina) or anus during sex, the partners are considered to be having *oral sex*.

When a male's penis is inserted into his male or female partner's anus, the partners are considered to be having *anal sex*.

Some questions ask about *sexual partners*. A sexual partner is someone with whom you have sex, that is, engage in sexual activity.

Some questions refer to *protected sex* and *unprotected sex*. Protected sex is when a latex or polyurethane condom (rubber) is used to cover the penis; a female condom is used to cover the vagina; or a dental dam is used to cover the anus. By unprotected sex, we mean vaginal, oral, or anal sex without a barrier such as a condom or dental dam.

How much do you think people risk harming themselves physically:

- 20. If they have oral sex without a condom or dental dam?
  - No risk
  - Slight risk
  - Moderate risk
  - Great risk

#### 21. If they have vaginal sex without a condom?

- Moderate risk
- Great risk
- 25. If they share nonsanitized needles or works when using drugs? ("Works" refer to supplies used for injecting drugs)
  - No risk
  - Slight risk
  - Moderate risk
  - Great risk

The next questions ask more about your attitudes and beliefs about sex.

# In your relationship with your <u>PRIMARY (MAIN)</u> partner, how confident are you that you could:

# 26. Refuse to have sex with your partner because you weren't in the mood?

- Not at all

### **Cigarettes, Alcohol and Drugs**

The next two questions are about CIGARETTES and	_
OTHER TOBACCO PRODUCTS.	

Think back over the past 30 days and record on how many days, if any, you used cigarettes and/or other tobacco products.

During the past 30 days, on how many days 55. did you smoke part or all of a cigarette? (Includes menthol and regular cigarettes and loose tobacco rolled into cigarettes)

The next two questions are about ALCOHOL. By alcohol, we mean BEER, WINE, WINE COOLERS, MALT BEVERAGES or HARD LIQUOR.

Different groups of people in the United States may use alcohol for religious reasons. For example, some churches serve wine during a church service. If you drink wine at church or for some other religious reason, do not count these times in your answers to the questions below.

Think back over the past 30 days and record on how many days, if any, you consumed alcohol.
