Annual Interview Questions

- **<u>Year 1 only:</u>** What were your initial impressions of the Complex Patient Research Learning Network and Technical Assistance project? In what ways has the project been the same or different than what you expected?

- **<u>Years 2 and 3:</u>** Has the Complex Patient Research Learning Network and Technical Assistance project met your expectations? Please explain.

- What do you see as the strengths of the Complex Patient Research Learning Network and Technical Assistance project?

- What have been the benefits to you/your research of participating in the Complex Patient Research Learning Network and Technical Assistance project?

- What suggestions do you have for improving the Complex Patient Research Learning Network and Technical Assistance project?

- Has your involvement in the Complex Patient Research Learning Network and Technical Assistance project changed how you feel about sharing your data with other complex patient researchers? Please explain.

- Have you made any changes to your research (i.e., study design/ protocol/ implementation/ analysis/ results interpretation) because of your involvement in the Complex Patient Research Learning Network and Technical Assistance project (e.g., from something you learned during a Learning Network session, a webinar, technical assistance you received, or due to collaboration with another complex patient investigator)? Please describe.

- Has your research been enhanced or facilitated by collaboration (e.g., shared research methods, shared code or variables, shared datasets, etc.) with other complex patient investigators? Please explain.

- Have you created any new measures, developed new coding schemes, or otherwise created something new with other complex patient investigators? Please describe.

- **<u>R24 grants only:</u>** Has participation in the Complex Patient Research Learning Network and Technical Assistance project helped you with the development of your public use dataset? Please explain.

- Do you have any other concerns or thoughts related to this project that you would like to raise?
