

Note to Reviewer: Reinstatement Request

The 60 day FRN for this information collection request was delayed and was published one day shy of the 60 day mark before the expiration date. In consultation with OMB/OIRA, and in view of the fact that fewer than nine states are participating in this ICR (in fact, only two states have ever been participants), ETA asked that this ICR lapse and is now seeking reinstatement. The alternative would have been to request an emergency extension to prevent the discontinuance.
