

## **Narrative of Changes**

*The purpose of the Narrative of Changes is to clearly indicate revisions to a collection since the previous approval*

Collection Title: Adequacy Certification for Reception Facilities and Advance Notice  
– 33 CFR Part 158

OMB Control No.: 1625-0045

Current Expiration Date: 11/30/2011

Collection Instruments: CG-5401, CG-5401A, CG-5401B, CG-5401C and Instructions

The change in burden hours is an ADJUSTMENT. There is no proposed change to the reporting or recordkeeping requirements of this collection. The reporting and recordkeeping requirements, and the methodology for calculating burden, remain unchanged.

The following listed below are changes to the collection:

- Decrease in burden (burden hours) is due to a decrease in the number of certificates of adequacy (COAs) issued to reception facilities. While the number of reception facilities has remained steady from the last ICR, the number of COAs issued to these facilities has decreased (600 to 499). We do not have an explanation for this change.
- Updates are provided for cost burden associated with this collection of information.
- USCG has created printable instructions for this collection of information.
