R&D Expenditures by Source and Type

Status

1. R&D expenditures by source of funds

Question 1

How much of your total expenditures for separately budgeted research and development (R&D) came from the following sources in FY 2010?

- In rows a, b, c, d, and f: Include both direct and recovered indirect costs (reimbursement of Facilities and Administrative (F&A) costs from external sponsors).
- Report the original source of funds, when possible.
- Include all fields of R&D: sciences, engineering, humanities, education, law, arts, etc. See full listing in Question 9.

Question form displayed here

[Clear form](#)

▶ 2. Foreign funding for R&D

▶ 3. Contracts and grants

▶ 4. R&D at medical schools

▶ 5. Clinical trial R&D

▶ 6. Types of R&D: Basic research, applied research, and development

No Blanks

R&D Expenditures from Federal Resources

Status

9A. R&D expenditures by field and federal agency source: Engineering

48 blank fields

Error – Please do not leave blank fields.

No Expenditures

If you do not track this information and have no expenditures to report for this section, "0" will be entered in all blank form fields.

Unavailable

If you cannot provide the information at this time. "Unavailable" will be entered in all blank form fields.

Question 9A

What were your FY 2010 R&D expenditures in engineering funded by the federal agency sources below? (R&D expenditures from nonfederal sources will be reported in Question 12.)

- Question 9 total should match Question 1, row a.
- [List of agencies and subagencies](#) (PDF, 00KB) belonging to each department/agency shown below.
- If an individual project involves more than one of the 36 fields of R&D, please prorate expenditures when possible and report the amount for each field involved.
- For subrecipient funding, report the agency that sponsored the original award.

R&D Expenditures from Federal Sources (dollars in thousands)

▼ 1 trend variance

Trend Variance - Question 7, row b, column 1

\$7,488 Subrecipient Federal funds from other sources represents a large decrease from last year's value (\$9000). [Update explanation.](#)

How much of your R&D expenditures reported in Question 1 did your institution receive as a subrecipient?

The **subrecipient** for an award carries out the work but receives the funds from a pass-through entity rather than directly from the original funding source. See OMB Circular A-133, Section 105 for the federal definition. Subrecipients tend to be the co-authors of publications, writers of technical reports discussing findings, inventors, etc. Do **not** include vendor relationships. A vendor receives payment for goods and services provided. See OMB Circular A-133, Section 210.
