

Facilities Campus Space Questionnaire, Final

[Intro]

NSF is trying to understand how survey respondents report about research space at their various campuses, branches and other entities in the Survey of Science and Engineering Research Facilities. This will help us determine whether we need to clarify our guidelines for including entities when reporting research space.

Please answer the following questions based on your institution's submission of Part 1 of the FY 2011 Facilities Survey in <SUBMISSION MONTH DAY>, <SUBMISSION YEAR>.

In the following questionnaire, you will be shown a list of entities that may be related to your institution. You will be asked to identify the locations that were included in your answers to Part 1 of your FY 2011 Facilities Survey and clarify why others were excluded using a range of checkboxes. *No new information about research space or repair/renovation or new construction costs will be requested.*

[Q1]

Please indicate whether you reported research space in the FY 2011 Facilities Survey submitted by your institution for each entity listed below.

Note: This list includes the names of campuses, branches and other entities that have some interaction with one of the many National Science Foundation surveys. We understand that some of these entities may have no relationship with the Facilities Survey or that they might denote the same or overlapping locations or departments. Even if this is so, please respond for each listed entity.

	Yes, reported research space	No, did not report research space

Site B		
Site C		

[Q2]

Why did you not report research space at [site name] on your institution's FY 2011 Facilities Survey?

- No research space for this entity
- Other reason: please specify

[Q3]

Were any additional entities eligible for inclusion as part of your institution's submission for your FY2011 Facilities Survey (regardless of whether they had research space at that time)?

For your reference, these are the entities provided earlier.
