[Date]

Dear producer:

For more than 50 years, the Objective Yield Survey has played an integral part in U.S. crop forecasts. USDA's National Agricultural Statistics Service (NASS) combines these field measurements with farmer-reported survey data to publish monthly crop production forecasts. Farmers across the country use the information to make informed decisions about their operations.

The Objective Yield Survey will begin in late April for wheat and late July for corn, soybeans, cotton, and potatoes. A NASS representative will visit selected fields at the end of each month during the growing season to measure the crop's development and potential yield. During the first visit, we will ask you to verify the acreage reported on previous NASS surveys. With your permission, we will then enter your field(s) to collect plant and fruit counts and measurements. Your time will not be required for the field visits during this initial visit or those following throughout the growing season.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0535-0088. The time required to complete this initial information collection is estimated to average 15-25 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Information requested in this survey is used to prepare estimates of selected agricultural commodities. Under Title 7 of the U.S. Code and CIPSEA (Public Law 107-347), facts about your operation are **kept confidential** and used only for statistical purposes in combination with similar reports from other producers. Response is **voluntary**.

Thank you in advance for your support of our programs and [State] agriculture. If you have any questions or concerns, please contact me at (xxx) xxx-xxxx.

Sincerely,

[Director's Name]

Director, [State] Field Office

USDA is an equal opportunity provider and employer.

Thank you for cooperating on the 2012 Objective Yield Survey.  
 You can obtain reports which use Objective Yield Survey data on the Internet at:

[www.nass.usda.gov](http://www.nass.usda.gov)

The dates of these reports and the crops covered are as follows:

May 10, 2012	Crop Production	Wheat (Winter)
June 12, 2012	Crop Production	Wheat (Winter)
July 11, 2012	Crop Production	Wheat (Winter)
August 10, 2012	Crop Production	Wheat (Winter), Corn, Cotton, and Soybeans
September 12, 2012	Crop Production	Corn, Cotton, and Soybeans
September 28, 2012	Small Grains Annual	Wheat (Winter)
October 11, 2012	Crop Production	Corn, Cotton, and Soybeans
November 9, 2012	Crop Production	Corn, Cotton, Soybeans, and Potatoes
December 11, 2012	Crop Production	Cotton and Potatoes
December 14, 2012	Potato Stocks	Potatoes
January 11, 2013*	Crop Production Annual	Corn, Cotton, and Soybeans
