This collection is authorized under the Magnuson-Stevens Fishery Management and Conservation Act (16 U.S.C. 1801 et. seq.). The information will be used in the management of the American lobster fishery by helping to restrict the number of traps fished by an individual permit holder and thus enforce that provision of the effort reduction program for the American Lobster Fishery.

Public reporting burden for the collection of information is estimated at 3 minutes for reporting lost or missing tags and ordering replacement tags. These estimates include the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the National Marine Fisheries Service, Lobster Trap Tag Program, One Blackburn Drive, Gloucester, MA 01930-2298.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.
