We can learn
to deal with
the pain.

Millions of Americans wake up each morning with a chronic health condition that impacts their life. But there is something that they — and you — can do.

Self-management education can help you learn strategies, such as goal setting and self-monitoring, to help you make good decisions about your health. There are many self-management education programs, find the one that fits you.

Millions of Americans wake up each morning puzzling over a chronic health condition that impacts their life. If you're one of them, there are answers.

Self-management education can help you learn strategies, such as goal setting and self-monitoring, to help you make good decisions about your health and feel better.

There are many self-management education programs. Find the one that fits you.

MOM,
You take care
of everyone else.
But what about
yourself?
We need you.

Love,
Ashley, Michael and Dad

We all have our reasons.

Learn how self-management
education can give you
the skills you need to take
control of your health.

Do it for yourself.
Do it for them.
Do it for a healthier future.
