EPN BG RM 4056

Exempt #: 12306

From: Office of Human Subjects Research (OHSR)

Nature of Research Activity:

The aim of this study is to refine and validate a survey designed to test a tripartite model of risk perceptions. The model includes deliberative/ cognitive risk perceptions, affective/ emotional risk perceptions, and intuitive/ experiential risk perceptions. Preliminary research has validated this factor structure, but more data collection is required to assess its predictive validity as well as moderators of the associations between variables and outcomes in the model
