Ms. Julie Wise
NIH PRA Desk Office
Office of Information and Regulatory Affairs/OMB

Dear Ms. Wise,

The NIH Office of Intramural Training & Education (OITE) wishes to submit an addendum to the current OMB Clearance 0925-0299, expiration date March 31, 2014. This submission was recently approved for use by the OITE for the various training programs and opportunities to prospective intramural trainees.

http://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201102-0925-005

During the 2011 approval process, the OITE combined three previous approvals into one:

- 0925-0299 – NIH Intramural Research Training Award, Program Application
- 0925-0438 – Undergraduate Scholarship Program (retired)
- 0925-0501 – Graduate Student Training Program Application (retired)

An unfortunate consequence of the merge was the accidental omission of key forms used by the Undergraduate Scholarship Program (UGSP):

- UGSP – Undergraduate Institution Certification
- UGSP – Academic Enrollment Certification and Service Obligation Deferment Request

The UGSP Undergraduate Institution Certification form is used by the UGSP to determine a prospective scholar's eligibility into the program. This form is completed by the university financial office to confirm the cost of education, sources of financial support, and assessment of exceptional financial need status; critical elements for admission consideration into the UGSP program. The UGSP estimates the submission of 300 forms, equating to 75.0 burden hours annually (see tables provided below).

The UGSP Academic Enrollment Certification and Service Obligation Deferment Request is used by current UGSP Scholars to defer the service obligation associated with the program. The UGSP estimates the submission of 130 forms, equating to 32.5 burden hours annually (see tables provided below).

Overall, the inclusion of these two forms will increase the burden hours for the 0925-0299 collection from 46,147.5 hours to 46,255.0 hours, overall difference of 107.5 hours. And an

annualized cost to respondents from \$1,533,335.00 to \$1,535,285.05, overall difference of \$1,950.05. These forms are currently not being used by UGSP though are needed for the Fall 2012 application cycle which has already begun.

Enclosed you will find copies of the Undergraduate Institution Certification form and Academic Enrollment Certification and Service Obligation Deferment Request form. Should you have any questions or concerns regarding this request, please contact me at your earliest convenience.

Best regards,

Instructions for Undergraduate Institution Certification Form NIH 2762-3

Exceptional Financial Need Status Identification of Individuals from Disadvantaged Backgrounds (Scholarship applicants must be from disadvantaged backgrounds)

A student from a disadvantaged background is one who comes from a family with an annual adjusted gross income below a level based on low-income thresholds according to family size, as published by the U.S. Bureau of the Census, adjusted annually for changes in the Consumer Price Index, and adjusted by the Secretary, DHHS, for use in all health professions programs.

Qualification of EFN Status. Applicants who qualify as having EFN status must provide the Financial Aid Director of their undergraduate institution total financial information, including: parent's income and spouse's income (if applicable), regardless of the student's taxable status, and must be of EFN, as defined by the Secretary, DHHS, (see above). The Financial Aid Director must certify this information and the institution's certification of an applicant's EFN status must be included with the UGSP application package.

The Secretary, DHHS, will periodically publish these low-income levels in the Federal Register. (Please see the table below for the most recent determination of low-income levels). If family income for the most recent calendar year is less than the income level indicated on the chart below for the appropriate family size, students fulfill the definition of an individual having exceptional financial need (EFN). Students certified as being of EFN are considered to be from disadvantaged backgrounds.
